He stated his main concern is the safety of citizens and asked if the residents of the Topeka Rescue Mission have been consulted about the proposed change.

Thomas Underwood, NOTO Arts & Entertainment District Executive Director, reported businesses have always been reluctant to close Kansas Avenue as it has a serious effect on business operations as well as there is limited outlying parking. He referenced the negative impact the construction of the Kansas Avenue Bridge had on downtown Kansas Avenue, and noted there has been many safety issues that have had to be addressed due to bicycles etc. He reported the proposed ordinance is a measure to enhance the area and make it more visitor friendly and it would not preclude bicycles from being in the area, just on sidewalks.

He stated he believes having the city manager involved in the negotiation process hinders the ability to facilitate and sustain positive labor negotiations.

Interim City Manager Cochran stated citizens will provide input on the position description and what they would like to see in a city manager. Stephen Wade, Administrative and Financial Services Director, stated the discussion would continue from the April 5, 2022, Governing Body meeting and includes one new proposal from the Fire Department for consideration in outlying years.

Councilmember Dobler referenced the Sidewalk Repair Program on page 19 of the 2023-2032 Capital Improvement Plan Book. He stated the Public Infrastructure Committee has had discussions regarding the 50/50 sidewalk program which has an annual fund balance of $200,000. He asked if there is a project planned in the current year; and what the current process is for handling sidewalk repairs based on complaints. He suggested funding Low to Moderate Income (LMI) neighborhoods or income based individuals for those who cannot afford repairs. He requested the Sidewalk Program be discussed at an upcoming Public Infrastructure Committee meeting.

Councilmember Valdivia-Alcala stated she concurs with Councilmember Dobler. She stated people are not utilizing the 50/50 program because they cannot afford it specifically as it
relates to the elderly LMI population.

Councilmember Hiller referenced and explained the four sidewalk programs that are currently available and encouraged the Governing Body and Staff to look at these programs comprehensively.

Braxton Copley, Utilities Director, stated Staff will provide a presentation at the upcoming Public Infrastructure Committee. He reported not all program funds have been expended and he would recommend temporarily reducing the amount being requested and work towards spending down the $200,000 of Sidewalk Program funding.

Mayor Padilla stated he concurs with Councilmember Dobler and would support this much needed initiative.

Councilmember Duncan referenced the Municipal Building Heating, Ventilation, and Air Conditioning (HVAC) upgrades in the amount $10.2 million. He stated he is still confused as to why an assessment cannot be made on the building to confirm the amount needed. He inquired on the timeline for relocating City Fleet Division operations.

Interim City Manager Cochran stated he has instructed Staff to dedicate $1 million of the $2.8 million remaining of City Hall renovation funds to complete an accurate evaluation of the HVAC system. He reported the City must remove Fleet Division operations from the current building location no later than July 2024; the Fleet Division building has been appraised at $1.2 million; and the City may receive additional funds for the relocation of equipment.

Councilmember Hiller referenced several CIP projects that have leftover funding each year resulting in approximately $3.45 million of unobligated funds. She reported if they were to
consider sun-setting those projects/maintenance items and take advantage of fund and mill levy balances along with moving the purchasing of fire and fleet vehicles back into the operating budget it would equate to $8-13 million annually to spend on more routine items.

DISCUSSION introduced by Councilmember Spencer Duncan supporting serious discussion and consideration of reducing mill levies for budget year 2023 by the City and other taxing subdivisions in light of significant property value increases, was presented.

Councilmember Duncan reported the proposed resolution would be utilized during the City’s budget deliberations. He stated approval would not lower the mill levy but instead, ask all other entities to seriously consider lowering the mill levy within their budget.

Councilmember Valdivia-Alcala stated she concurs with Councilmember Duncan. She stated the resolution will help people understand where the responsibility lies for increased mill levy and taxes.

Councilmember Emerson stated government always expands operation costs to what amount of funding is available; therefore, he supports the idea and concept. He stated there is a need to look at the amount of tax exempt properties in Shawnee County and noted government should not grow faster than inflation.

Councilmember Dobler stated he agrees with the concept and will be interested to see how the combined increase will relate to inflation. He stated approval of the resolution would lead the City to bigger discussions which should be done every time the Governing Body considers an operating budget. He stated available fund savings needs to being taken into account including reserve fund balances and sales tax. He suggested they proceed in a similar manner as the State and pay down debt.

Councilmember Duncan stated the resolution would be considered for action on the April

Subject: 6D. Discussion. Ref Manager

One of the things we really need in Manager is an ability to solve problems, and examples of solving public policy problems, and an ability to analyze public problems on their own when needed, and to find solutions promptly with minimal resources when necessary. An ability to build consensus and negotiate. An ability to have empathy for our citizens and a willingness to listen to the public and the council board. Thank you.

Ref City Hall HVAC. $10 millions to spend - I am opposed. We spent $2 millions on 2018 on this HVAC. I am thinking about how much good this amount would accomplish if $10 millions would be used for housing incentives or possibly even street surface repairs. This is A lot of money and is about $125,000 to spend each, for offices for 80 employees. We are needing less office space as a society nationwide. More folks are working out of office. Thank you.        Joseph Ledbetter JD, MPA

I support this discussion. We need to make sure Topeka is affordable to live in. I am hearing of huge valuation increases and believe over 5 percent increases may be actually be too much. But we need to be ready to lower the mil levies and not take a win fall off the citizens. Thank you. Joseph Ledbetter JD, MPA
