National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "X" in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-9000e). Use a typewriter, word processor, or computer, to complete all items.

The Holliday Park Historic District I (c. 1885-1939) is located in Topeka, Shawnee County, Kansas. The northeastern portion of the district stand on land that was laid out in 1856 as part of the original town plat, the remainder was annexed by the city in 1889. The street pattering in the area follows the grid pattern established by the city founders who used the south river bank as the alignment point for the platting of the Original Town. The configuration for the new streets in the district were altered later to a true north orientation and a variety of angles were required to create the new street alignment. The district contains Holliday Park, a triangular city park near its southern boundary.

Developed between 1885 to 1939, the district contains eighty-one houses and apartments, thirty-two garages and carriage houses, one church, and one park. Seventy-one residences and twenty-eight secondary buildings are contributing resources. The non-contributing resources have either been covered with non-original siding such as asbestos tiles, vinyl, aluminum or masonite or they are resources which were constructed after 1939. Three quarters of the housing stock in the neighborhood is single family, residential, the remainder is multi-family residential. Many of the properties include detached garages that are located at the rear of the property, usually fronting the alley.

The nominated blocks include the 1000 and 1100 blocks of S. W. Western (both sides), the 1200 block of S. W. Western (west side bordering Holliday Park), the 1200 block of S. W. Taylor (east side bordering Holliday Park), the 900 block of West Twelfth Street (north side between S. W. Taylor and S. W. Fillmore), the 1100 block of S. W. Fillmore (both sides), the 900 block of S. W. Munson (both sides) between S. W. Fillmore and S. W. Western, and the 808-812 structures of the 800 block of S. W. 11th Street (north side).

The general character of the district is that of an urban neighborhood. The tree lined streets are covered with asphalt but many of the streets retain their original brick pavement underneath. Public sidewalks of brick and concrete run in front of all of the structures, feeder sidewalks lead from the public walks to the residences. Many of the original stone curbs remain. The brick sidewalks and limestone curbing are character defining features of the district.

Development in the district occurred at a steady pace throughout the fifty-year period traced by the nomination. In the mid-1880s, at least one house was built on every block included in the nomination. These homes were mainly variations on the Queen Anne style but also included Italianate and National Folk styles. The greatest building boom occurred between 1900 and 1915, when fifty-one homes were constructed. The early twentieth century construction established the character of the neighborhood. Many of the homes are late Queen Anne transitional types, incorporating Colonial Revival details. Additionally, Holliday Park contains many examples of the Homestead, Four-Square and Bungalow styles. In the last development phase, examples of Georgian and Colonial Revival, along with Minimalist traditional and Neo-Classical Revival were constructed. Garden apartment living was introduced to the neighborhood during the 1920-1939 development phase. The cluster of detached homes and apartments is located in the 1000 block of S. W. Western on the west side.
The district contains two other historic apartments, the Devon which was built in 1896 and 1906 and the Glick Apartments built in 1920. The Devon stands at the northern boundary of Holliday Park, the Glick stands one block to the north on West 11th Street.

Holliday Park Historic District I maintains a uniquely high level of architectural integrity in both its primary and secondary structures. In addition, the neighborhood maintains its historic layout based on the town plats of 1856 and 1896. Alleys run down the center of each block, providing access to the garages and carriages houses.

Unique features of the district include the triangular Holliday Park, bounded by Western, Taylor and 12th Streets. The park was deeded to the City of Topeka in 1901 and has been an important feature of the neighborhood for more than one hundred years.

**Inventory:**

The following properties are included in the historic district:

**1000 BLOCK OF S. W. WESTERN AVENUE – WEST SIDE**

A driveway runs along the south side of the property.

Contributing one-story gable roof, clapboard garage.

Building Permit #11060 was issued September 22, 1903 to J. H. McEwen for a new 2 story dwelling 30x38, at an estimated cost of $1,800. Mr. McEwen was the original owner-resident and also carpenter. The house appears the same on the 1913 and 1935 Sanborn Fire Insurance Maps. This house is unique in style compared to others on the block.

Dutch Colonial Revival; cube; gambrel. 1-3/4 story; symmetrical; square butt wood siding; east orientation; gambrel roof; composition shingles; 2 gambrel dormers, 3/1 double hung sash, vertical mullions, no chimney; stone foundation; 4 bays; bays 1 & 3--8/1 double hung sash; bays 2 & 4--12 light doors; veranda porch, square wood supports, turned post rail, shed roof balcony sheltered window and single light door, turned post supports, closed rail.

Building Permit #11667 was issued on March 3, 1905 to H. L. Peppmeyer for a 28'6"x29'6" dwelling at an estimated cost of $3,000 at 1023 Western. This is most likely the building permit for 1025 Western--at some early date the building number was changed as 1021 Western is immediately to the north of the current 1025 Western. The present house replaced another dwelling on the property. According to the Sanborn Fire Insurance Maps, the present house existed in 1913 and remained unchanged in form through 1935. Appraiser records of 1920 may indicate major internal alternations such as the transition from single to multi-family residence.

The following three structures (10, 11, 12) are identical except for the address, KSHS Inventory Code, KHRI Survey Sequence Number, and original owners/residents. They have identical legal descriptions.

5. 1027 S. W. Western Reid House (c. 1937) Contributing

6. 1027-A S. W. Western Crabb House (c. 1937) Contributing

7. 1027-B S. W. Western Marshall House (c. 1937) Contributing
   KSHS Inventory Code 177-5400-0459
   Legal Description: Western Ave Lots S 18.75 Lt 349, All Lots 351, 353, 355, & Pt. 357 DAF POB NW Cor., ELY 90 (S) WLY 92 (S), NLY 18 (S) to POB, Young's Addition to the City of Topeka, KS

Minimalist traditional style; rectangle; end gable roof. 1 story; asymmetrical; clapboard siding; south orientation; end gable roof; composition shingles; rear chimney; stone foundation; 2 bays; bay 1--8/1 double hung sash; bay 2--front gable portico shelters 6 light doors, square wood supports, open rail; 6/1 double hung sash centered in front gable.

The property's history and ownership is mixed with that of 1029 Western. 1029 Western was originally addressed as 1027 Western; however, the 3 houses currently addressed as 1027 were constructed in 1937 and first appear listed in the 1938 City Directory as vacant.
8. 1029(27) S. W. Western  Brewer House  (c. 1920) Contributing
KSHS Inventory Code 177-5400-0461
Legal Description: Western Ave Lots S. 18.75 Lt. 349, All Lots 351, 353, 355 & Pt. 357 DAF POB NW Cor, ELY 90 (S), WLY 92 (S), NLY 18 (S) to POB, Young's Addition to the City of Topeka, KS

Georgian Revival variant; institutional flavor; rectangle; end gable roof. 2 story; symmetrical; clapboard siding; east orientation; end gable roof, composition shingles, 2 front gable dormers, returned eaves, 6/1 double hung sash; center rear chimney; stone foundation; 5 bays; bays 1 & 5--paired 6/1 double hung sash, both levels; bays 2, 3 & 4--six light doors, both levels; shed roof double portico, front gable accents entries, square wood supports, open rail, both levels.

Appraiser records date the dwelling as constructed in 1920, but that may be based upon alterations done to the property as the 1924 City Directory indicates Grace Brewer at that address since 1914. According to the 1913 Sanborn Fire Insurance Map, there was a previous dwelling at 1027 Western which this 1029 dwelling replaced. The house was originally addressed 1027 Western but was changed to 1029 Western. After the three houses at 1027 Western were constructed in 1937, Brewer's address listing shifted to 1029 Western, the first such listing for that address in 1938 when the first multiple listings of 1027, 1027-A and 1027-B occurred.

9. 1033 (1031) S. W. Western  Brigham House  (c. 1902) Contributing
KSHS Inventory Code 177-5400-0463
Legal Description: Western Ave N. 62.5 Lt. 102, N. 62.5 of E. 23.17 Lt. 104 Giles Add., 8 Pt. Lt. 357 Young's Addition, DAF POB SW Cor. Lt. 357, NLY 12.5 ELY 92 (S), W 93 (S) of Topeka, KS

Colonial Revival; Irregular; front gable roof. 2 story; asymmetrical; clapboard siding; east orientation; front gable roof w/intersecting side gable, composition shingles; rear chimney; stone foundation; 45 degree polygonal unit on side elevation, 1/1 double hung sash, both levels; 4 bays; bay 1--paired 6/1 double hung sash, both levels; bay 2--large 10/1 double hung sash, upper level 8/1 double hung sash; bay 3--flat roof portico shelters 2 light, 4 panel door, balustrade; recessed bay 4--one story, end gable roof, paired 6/1 double hung sash, 3 light basement windows; paired 4/1 double hung sash centered in front gable. A driveway runs along the north side of the property.

Contributing, one-story, ridge hipped roof, tongue and groove garage. ✗

Although the appraiser records list this house as constructed in 1926, the house appears on the 1913 Sanborn Fire Insurance Map. Between the 1913 and 1935 Sanborn Maps, the addition on the north of the house was added which might account for the appraiser dating being based more upon alterations than actual construction of the dwelling.
The 1902 and 1907 City Directories indicate the Brigham family living at this address previous to the appraiser records.

1000 BLOCK OF S. W. WESTERN AVENUE – EAST SIDE

10. 1012 S. W. Western Moore House (c. 1887) Contributing

Building Permit #5592 issued August 16, 1887 to John L. Buckner for new 2 story, 18x28 residence and new barn at a estimated cost of $1,200. The twelve room (modern wiring, plumbing, heating) house appears the same on the Sanborn Fire Maps for 1896, 1913 and 1935.

11. 1016 S. W. Western Buckner House (c. 1885) Contributing

KSHS Inventory Code 177-5400-0450

Legal Description: Western Ave S 1/2 of Lot 340 and all of Lot 342 Original Townsite of Topeka, KS

Homestead style, gable facade. 2 story; asymmetrical; clapboard siding; west orientation; front gable roof, composition shingles; center and rear chimneys; stone foundation; 2 bays; bay 1--cottage window, 2/3 operable, upper level offset left and right narrow 1/1 double hung sash; bay 2--12 light door, upper level narrow 1/1 double hung sash; recessed bay 3--shed roof wing, narrow 1/1 double hung sash; front gable porch covers lower facade, classical columns, open rail, aluminum awning; louvered opening centered in front gable, corner boards, plain frieze board.

Contributing one-story gable roof, tongue and groove garage.

Building Permit #3832 was issued April 10, 1885 to William W. Buckner for 18x28 two story new house at an estimated cost of $800. In 1887 Mr. Buckner applied for a building permit for a barn. The house was the same on
the 1896, 1913 and 1935 Sanborn Maps. The 1924 City Directory shows the house as a 6 room dwelling with modern wiring, plumbing, and heating.

12. 1018 S. W. Western  Jacklau House  (c. 1904) Non-contributing
   KSHS Inventory Code 177-5400-0452

Building permit was issued to S. E. Lux in August 1915 for a 26’x48’ addition and residential remodeling (estimated cost to be $2,500). Lux resided at 1207 Western and the remodeling permit might actually relate to 1207 rather than
1205 as recorded. Although the assessor date for the house is 1920, this date probably refers to these extensive alterations. Site analysis indicates the existing house could be turn of the century. The 1924 City Directory describes the house as a 6 room, 1 1/2 story, modern frame residence.

Building Permit #11380 was issued June 16, 1904 to E. R. Barns for new dwelling, 25’ front, 35’ feet deep, two story, with probably date of completion of September 15 at an estimated cost of $2,000. The appraiser date of 1920 might be due to remodeling (see 1205 Western) although the house appears the same on the 1913 and 1934 Sanborn Maps. The interior follows the tradition of most modern Queen Anne era houses with a reception hall and stair, front and back parlors, and dining room on the ground floor. Unique glass paneled pocket doors separate the two parlors.

KSHS Inventory Code 177-5400-0321  
Legal Description: Fillmore St. Lots 421-423 King’s Young’s Addition to the City of Topeka, KS

Queen Anne; irregular T-plan; hip w/gable. 2 story; 6 bays; asymmetrical; aluminum siding; east orientation; hip roof w/intersecting front gable, composition shingles, returned eaves, side hip roof dormer; center & exterior side left chimneys; stone foundation; bays 1 & 2--1/1 double hung sash, both levels; bay 3--single light, 3 panel door, upper level 45 degree angle, 1/1 double hung sash; bay 4--1/1 double hung sash, both levels; bay 5--1/1 double hung sash, upper level 45 degree angle, 1/1 double hung sash; bay 6--1/1 double hung sash, both levels; shed roof porch covers lower facade, paired square wood supports, closed rail.

Although the Appraiser Records date the house at 1920, this is probably due to some major alterations done at that time. Site analysis is consistent with Sanborn Fire Insurance Maps, 1900 Census Records, and City Directory listings that date the dwelling from at least 1900.

Building Permit #14980 issued May 19, 1910 to original owner-resident, I. W. Felix, for a new 31.6x39', 1 story
frame residence to cost approximately $3,400. A second BP was issued to I.W. Felix in 1913 for a new 10x14'
structure at this address that was to have a tin roof; this may have either been an  addition to the house or the small
building depicted on the Sanborn Maps resembling a garage at the back of the property line. There was also a two-
story dwelling facing 12th Street on the west part of the same lots. The main dwelling appears the same on the 1913
and 1935 Sanborn Fire Maps.

Legal Description: POB NW Corner Lot 416 Block 12 E 162 S 34 W 14 S 4 W 148 (S) to Street N 38 along street to POB, King’s Addition to the City of Topeka, KS

Bungalow; rectangle; hip on gable roof. 1-1/2 story; 3 bays; clapboard siding; west orientation; slipped front gable roof; composition shingles; exterior side left chimney; brick foundation; bays 1 & 3--paired 3/1 double hung sash, vertical mullions; bay 2--4 light, 2 panel door; clipped front gable porch, square wood supports, square stone pedestals, open rail; 4 light hopper window centered in front gable. A driveway runs along the north side of the property.

Contributing, one-story, gable roof, tongue and groove garage.

A small one-story dwelling had originally existed here in 1894. Building permits of January 1922 to December 1923 listed a two-story dwelling was to be erected by D. P. Scott. In 1923-24 the resident was Giles H. Harris, a traveling salesman for a wire company and the house was described as a two-story frame 7-room modern home. The 1930 estimated construction date for the present dwelling was from Appraiser Records.

Contributing, one-story, gable roof, clapboard garage.

Information is confusing about this address as residents were listed in the 1916 City Directory and appraiser information indicates a 2 story, nine room, modern wiring, plumbing and heating structure was present in 1915 and one is depicted on the 1913 Sanborn Fire Insurance Map. However, Building Permit #A-4811 was issued to I. W.
Felix on July 6, 1923 no. 1172, new dwelling, 30' front, 40' deep, 2 stories and BP #A-4812 for garage at this address at a cost of $9,500. Pictures indicate this is the current structure. It may have replaced a previous structure.

hung sash (vertical Mullions); bay 2--4 light, 2 panel door; bay 3--8/1 double hung sash; front gable porch, returned
eaves, tapered wood supports, square brick pedestals, open rail.

Contributing, one-story, hipped roof, brick garage.

Appraiser records date the construction of the bungalow as 1920. A residence of similar appearance is depicted on
the 1913 Sanborn Fire Insurance Map. Therefore, the 1920 date may indicate major alterations within the house
that may have been done between 1915 and 1920. Another possibility is that the current dwelling replaced the
earlier one. The 1924 City Directory described the house as a 1 story, frame with 5 room and modern plumbing,
wiring, and heating.

Contributing, one-story, gable roof, clapboard garage.  

The Sanborn Fire Insurance Map of 1913 shows the structure at 1196 Fillmore was displaced by a larger building erected in the center of 1196-1198 Fillmore.  A relocation permit was issued to H. P. McClurkin in 1900 for the house at 1196 which may have been centered more on the lots between 1196 and 1198 rather than completely removed from the neighborhood.  A building permit was issued in 1909 to C. Short for an addition to 1198 Fillmore and another permit was issued to Mrs. Charles Short in 1911 for a two-story addition.  Building Permit #A758 was issued September 18, 1918 to Mrs. Chas. Short for remodeling.

Folk Victorian; cross gable hipped roof. 2 story; 3 bays; asymmetrical; clapboard siding; cast orientation; front gable roof w/intersecting side gable; composition shingles; offset right chimney; stone foundation; bay 1, cottage window, 2/3 operable, upper level offset right w/1/1 double hung sash; bay 2, shed roof portico shelters entry door; bay 3, 1/1 double hung, upper level recessed; louvered opening centered in fish scale front gable; corner boards and plain frieze board. A frame garage and driveway are on the west side of the property.

The house began as a Queen Anne fronting Western (1037 Western) and is depicted on the 1896 Sanborn Map. Comparison of 1896 and 1913 Sanborn maps show the original porch was a wrap-around that extended to the entrance on Munson. By 1913 this was changed to just a front extension across the front facade of Western. At some point, the porch was again modified to its present modest appearance.

Giles, for new dwelling, 24' front, 40' deep, two stories, wood side & rear walls, wood front wall, shingle roof, 3 flues, probable date of completion, November 1, 1986, estimated cost of $2500. The house is shown on the 1896 Sanborn Fire Insurance Map; however, the address does not appear in city directories until 1927.
Holliday Park Historic District I (c. 1885 to 1939) is being nominated to the National Register under criteria A for its association with the growth and development of Topeka, Kansas and under criteria C for its architectural significance as a unique grouping of late nineteenth and early twentieth century residential architecture. Holliday Park Historic District I maintains a uniquely high level of architectural integrity in both its primary and secondary structures. In addition, the neighborhood maintains its historic layout based on the town plats of 1856 and 1896. Alleys run down the center of each block, providing access to the garages and carriage houses. Unique features of the district include the triangular Holliday Park, bounded by Western, Taylor and 12th Streets. The park was deeded to the City of Topeka in 1901 and has been an important feature of the neighborhood for more than one hundred years.

Developed between 1885 to 1939, the district contains eighty-one houses and apartments, and thirty-two garages and carriage houses. Three quarters of the housing stock in the neighborhood is single family, residential, the remainder is multi-family residential. Many of the properties include detached garages that are located at the rear of the property, usually fronting the alley.

The general character of the district is that of an urban neighborhood. The tree lined streets are covered with asphalt but many of the streets retain their original brick pavement underneath. Public sidewalks of brick and concrete run in front of all of the structures, feeder sidewalks lead from the public walks to the residences. Many of the original stone curbs remain. The brick sidewalks and limestone curbing are character defining features of the district.

Development in the district occurred at a steady pace throughout the fifty-year period traced by the nomination. In the mid-1880s, at least one house was built on every block included in the nomination. These homes were mainly variations on the Queen Anne style but also included Italianate and National Folk styles. The greatest building boom occurred between 1900 and 1915, when fifty-one homes were constructed. The early twentieth century construction established the character of the neighborhood. Many of the homes are late Queen Anne transitional types, incorporating Colonial Revival details. Additionally, Holliday Park contains many examples of the Homestead, Four-Square and Bungalow styles. In the last development phase, examples of Georgian and Colonial Revival, along with Minimalist traditional and Neo-Classical Revival were constructed.

Garden apartment living was introduced to the neighborhood during the 1920-1939 development phase. The cluster of detached homes and apartments is located in the 1000 block of S. W. Western on the west side. The district contains two other apartments, the Devon which was built in 1896, and the Glick Apartments built in 1920. The Devon stands at the northern boundary of Holliday Park, the Glick stand one block to the north on West 11th Street.
Predominate architectural styles in the district include the Queen Anne, the Homestead, and the Four-Square. All of these styles are represented by different variations on a theme. Some Queen Anne houses incorporate more decorative detail than others. Some Four-Square and Homestead houses incorporate Craftsman features while others incorporate Colonial Revival features.

The architectural styles used for housing construction in Holiday Park reflect the turn-of-the-century move toward a less formal floor plan. Various styles and number of stories were used. Many featured an offset entryway that opened into a vestibule containing a stairway to the upper level. This design allowed for easy conversion of single-family dwellings to multi-family use. As owner-residents looked for additional means to meet financial needs, many property owners converted their residences into multi-family housing. With two-story dwellings, the main floor was often retained for personal use while the second story was rented. This conversion of single to multi-family dwellings was a part of the early development of the area and continues today. In many instances, only a row or second mailbox identified a residence as a multi-family dwelling.

The Holliday Park district is rich in architectural detailing. Some of this attention to craftsmanship reflects typical stylistic features with the two most common elements used in the area being a two-thirds operable cottage window which was particularly popular at the turn of the century. Variations of the window include stained-glass edging, leaded glass borders, diamond paneled or stained glass or multi-paneled used on the upper third of the window. While the variety of door styles is evident in the district, there are many existing original doors. Some unique detailing includes the columns of 916 Munson and the wood treatment at 915 Munson. Some dwellings with ordinary exterior appearances have quite extraordinary interior features with much of the original pine and oak woodwork and floors and beautiful fireplace mantels still intact and in use.

Builders in the district included W. R. Weible (1100 and 1111 Western), C. E. Olander (1131, 1133 and 1135 Western), John Buckner (1012 and 1016 Western), J. H. McEwen (1119, 1020 and 1021 Western), Henry Bennett (800-808 West 12th and 914 Munson), William Welcome (who lived at 1021 Fillmore) built 1119 and 1020 Western, and J. H. Casson & Son (1237 Western) at the Abundance of Life Church. Some builders would build two or three homes on a block within a time period. Lytle and Murphy built the three homes at 1024 Western, 1028 Western, and 1032 Western. The Topeka Daily Capital advertisements of January 12, 1908, January 19, 1908 and January 26, 1908 listed these homes for sale “they will be open again this afternoon for your inspection, C. D. Lytle.” Topeka architect Walter Earl Glover designed the Neo-Classical church at 1237 Western.

The northeastern portion of Holliday Park was part of the Original Town created in 1856; the remainder was annexed by the city in 1889. The street patternning in the area follows the grid pattern established by the city founders who used the south river bank as the alignment point for the platting of the Original Town. When Colonel Joel Huntoon platted his eight-acre homestead, the configuration for the new streets in the survey area were altered.
Huntoon believed the compass points should be the guide in platting a town site, he established a true north orientation and a variety of angles were required to create the new street alignment.

The establishment of the Holliday Park neighborhood coincided with the national trend of urban development. Initially, residents were more concerned about reducing travel distance to work and the Holliday Park neighborhood is in close proximity to the commercial axis of the city. This district is within walking distance from Kansas Avenue, the commercial axis of the city which attracted would-be residents from all economic levels. This proximity attracted would-be residents from all economic levels. A comparison of the 1897, 1913, and 1935 Sanborn Fire Insurance Maps reveals that residential construction moved westward, initially along Tenth Street and southward along Tyler, before sweeping through the neighborhood in a wedge shape.

This social diversity was further encouraged by individuals who constructed houses for speculation. Analysis of building permits, appraiser records, census records, and city directory listings indicate the majority of existing structures in Holliday Park were erected by 1916 and the original settlers of the neighborhood created a balance reflecting the various socioeconomic levels from clerks to corporate and government leaders. Post World War II years saw many families leave and some of the old homes converted into apartments.

No district in the city evokes the spirit of urban life better than Holliday Park—a neighborhood rich in turn-of-the-century houses, home to the wealthy and famous as well as to simple working class folk. Ornate Victorian Queen Anne residences may be discovered beside simpler craftsman homes. Bounded by 10th and 13th, the west side of Polk and east side of Clay Streets, the southeast corner of the Historic Holliday Park District which encompasses the Holliday Park District I was part of the original 1850s Topeka Townsite. Subsequent additions, primarily of the 1880s, make up the remainder of the district. There is a street jog where the old and newer plats meet which resulted in the distinctive, 1-1/2 acre triangular park at 12th and Taylor/Western that gives the area its name.

The neighborhood’s focal point, Holliday Park, once belonged to Mary D. Holliday, wife of Topeka and Santa Fe Railway founder, Cyrus K. Holliday. Local legend relates how gypsies camped there in the early days though more likely 19th century residents merely used it to graze cattle or dump debris and building materials during house construction. With foresight, families living in the vicinity in 1895 formed the Holliday Park Association to assist in beautifying the space (an iron fence was an early project) and acquiring it for the city. The City of Topeka acquired the deed to the park property on March 16, 1901 from Mary Holliday for one dollar. The land transaction involved a tax dispute over the property owned by the Hollidays (Holliday Park File, City of Topeka Parks Department). The agreement stipulated that if city leaders at any time changed the function for which the land was used, the real estate was to revert to the Holliday heirs.
The park fountain (popularly known as the "old horse fountain") stood in the 6th and Quincy intersection for two decades—something of a Topeka landmark. Fashioned from polished brown granite, above the large bowl where horses drank, the square column featured bronze lions' heads on three sides, which spouted a stream of water. On the fourth side was a tablet honoring the donor of the foundation, the National Humane Alliance of New York. According to the December 15, 1929 Daily Capital, famed New York actress, Mrs. Minnie Fiske, while performing at the Grand inquired of the local humane organization members if the city would be interested in an animal fountain from the New York Society. Topeka's Foster Humane Society and the City Council both said yes and in the fall of 1907 the fountain was installed.

Water troughs or foundations were common sights in the 19th century, but things were changing in the first decade of the 20th century with the horseless carriage becoming more prevalent. The downtown location was appropriate since nearby businesses catered to farmers and the rural community, still largely tied to the horse. By the late 1920s Topekans saw the old horse fountain as a hazard to downtown traffic. It was supposed to have been moved to the bottoms area near City Park where horses could still come and drink, but even the exact location of its storage was questioned. By mid-1950s it was rediscovered, sans lions heads and memorial, near the sewage plant off River Road in Oakland. Ultimately, the fountain made its way to the Round-Up Club premises southwest of town. Through the efforts of the Society for the Preservation of Holliday Park, the Round-Up Club generously donated it to Holliday Park and efforts are underway to restore it to its working condition surrounded by a brick plaza in the park.

G. M. Pierce's Twelfth Street Boarding and Livery Stable was located on the corner of Western and 12th Street. It across from the park and boarded many expensive horses for residents of the district. It burned August 12, 1904, along with 16 valuable horses. Ten horses made it out of the barn to safety. Homes were constructed on this property. (Topeka State Journal, August 12, 1904, p. 1)

In 1873 only about eight houses were found in the larger Holliday Park area; by the end of the first World War in 1918 the neighborhood was essentially complete and mature. The overwhelming majority of dwellings were originally built as single family homes. Many of the residents were teachers. Among those were Minnie E. Jones (1906-16) at 1114 Western; Laura H. Evans, (widowed school teacher) who resided at 908 Twelfth from 1916 through at least 1935; Mildred M. Lewis (1916) at 1234 Taylor; Elinore F. Neal at 1216 Taylor (1907-16); John E. Lund at 1118 Western; Rachel Kendrick at 1111 Western; Mabel Fry (1948-72 English Teacher at Topeka High School) at 1174 Fillmore. Elizabeth Culver at 1213 Western taught at Topcka High School and Washburn College.
Ministers residing in the Holliday Park district included Ernest C. Silberson and his wife, Otilia, at 1105 Western from 1920 through at least 1930. Reverend Silberson was pastor of the First English Lutheran Church and the author of The Alphabetical Glove for Blind-Deaf Mutes and a member of The Silent Club of Topeka. He was able to preach in five languages including signs of the deaf and was interested in constructive and evangelistic work among the deaf. He and his wife had two children, Gretchen and Erna. (Illustriana Kansas, 1933, p. 1059; Who’s Who 1926, p. 135) In 1935 Reverend Coy L. and Vera Stager (First Lutheran Church) lived at the address but were not the owners.

The Church of Christ Scientists Church in Topeka dates from 1887 when two families of the faith moved to Topeka (one from Boston and the other from Beatrice, Nebraska). A society was formed and chartered on April 30, 1890, forming its first church May 8, 1896. By April 20, 1900 the church was meeting at Huntoon and Polk where it also had a reading room. The architect was Walter Earl Glover (designed many Westboro homes and Al! Landon’s Prospect Hills estate) and the construction contractor was J. H. Casson & Son. The church was under construction from September 1938-August 1939. The superstructure is of reinforced concrete and steel faced with light buff brick from Perla, Ark. The pillars are of silverdale stone from Silverdale, Kansas. (Topeka State Journal, Aug 5, 1939, p. 7; Topeka Daily Capitol, August 6, 1939, p. 6c) The church was sold in 1989 and then sold again in 1995 to the Abundance of Life Cathedral of Praise Church of God in Christ and the interior was remodeled. The Reverend M. P. Jackson, Jr. and his wife, Dr. Betsy Vaughn-Jackson, founded this church in May 1983 along with their two sons, De’Von and Dante.

George V. Hossfeld opened his trunk manufacturing company in Topeka in 1888. The firm was named The Topeka Trunk Manufactory. (Who’s Who 1905). By 1910 the company’s founder had established his residence at 1227 Western. The original owner-resident of 1197 Fillmore was Ilif Felix, president of the Felix Cothing Company. According to the 1924 City Directory Ilif had relocated from 1197 Fillmore to 1174 Fillmore. Other merchants included Samuel E. Lux, president of Lux Mercantile Company, at 1207 Western from 1904 through at least 1948. Lux moved to Topeka in 1889 where he began a grocery business and went on to a mercantile enterprise. Lux was one of the organizers and charter members of the Merchants’ Association. He and Charles Adams are credited with reorganizing the state fair in Topeka in 1910. (Wm. E. Connelley, History of Kansas, IV, p. 2043-2045; Builders
of Topeka 1934, p. 160 and 1956, p. 161, Blue Book of Topeka, 1910; p. 22; Topeka State Journal, October 20, 1930, p. 1)

The William Culver family established their home at 1213 Western. He co-founded the hardware firm of Culver and Bayley with M. M. Bailey which later became the Culver Hardware Company. In 1919 Culver died and his son, Wellington, nicknamed the Duke, assumed control of the business (George Mack, Topeka Capital Journal, June 19, 1977, p. 45). According to local accounts, Wellington’s drinking and waywardness forced the closing of the store. His sister, Elizabeth, assumed control of the family’s finances. Although Elizabeth tried to protect the family’s honor, Wellington’s foibles, drinking, and fifteen automobile accidents drew undesirable attention to the family name. While in Montana, Louise Culver, sister of Elizabeth and Wellington, murdered her daughter and committed suicide. After the death of Elizabeth (a teacher at Topeka High School and Washburn College) the family estate was left to Washburn College. The holdings included the house at 1213 Western, the house to the south at 1215 Western which had been the residence of the family maid, and the two houses to the north of 1213 Western.

Several newspapermen resided in the Holliday Park district. Earl R. Nickels (1924 resident) at 1018 Western was a pressman at Capper Publications. The 1924 City Directory listed Marco and Ida McCaskrie Morrow and son as residents at 1028 Western. Marco Marrow moved to Topeka from Chicago in 1908 and became advertising director for Capper Publications before becoming association publisher at Capper’s in 1919. He was a director of the Agricultural Publishers Association for 30 years and president of that organization twice. He was a director of the Audit Bureau of Circulations and of the National Publishers Association for many years. He was highly respected and widely known as a poet. (Who’s Who, 1926, p. 111; Blue Book of Topeka, 1910, p. 12, Builders of Topeka, 1934, p. 192, Connelley’s History of Kansas, IV, p. 1923) After his retirement he wrote a book on Old Testament Israel. Mr. Morrow died at the age of 89 in 1959.

The neighborhood representative for the Crane Publishing Company was Charles L. Mitchell, owner-resident of 1173 Fillmore. Mitchell was the secretary and sales manager for the Crane Company from 1916 through at least 1934. A notable newspaperman, F. S. Bullene, was the original owner-occupant of 1185 Fillmore (c. 1909). Bullene was a correspondent for the Kansas City Star. According to his biography in the 1910 Blue Book and in Who’s Who in Topeka 1926, Bullene had worked for Kansas City newspapers nearly all his life. (Topeka State Journal, August 27, 1918)

The first known resident at 1177 Fillmore in 1902-07 was J. F. Jarrell who moved to Topeka in 1893. In 1895 he married Myra Williams. J. F. worked on several local and Atchison newspapers. In 1903 he became city editor of the Topeka Daily Capital. After moving to Holton in 1907 Holton the Jarrells’ returned to Topeka in 1910 and J. F. served as director of publicity and manager of agricultural development for the Santa Fe Railway. His wife, Myra Jarrell, was the Inspector of the Kansas State Board of Review of Motion Pictures during the 1920’s. Her
short stories and plans were published and produced. Myra was the daughter of former Kansas Attorney General A. Williams. In 1916 they resided at 1186 Fillmore. (Markley's Builders of Topeka, 1934, p. 127-128; Who'w Who in Topeka, 1926, p. 24-25, Honor Roll, Shawnee County, KS c. 1919, p. 258)

The electrical utility companies were closely related to the development of the city's early transportation systems. In 1889 the Rapid Transit Company introduced electric streetcars and the firm remained the major transit line in the city until the 1920s when Kansas Power and Light Company acquired it. (Bird and Wallace, Witness of the Times) Albert M. Patten resided at 1025 Western from 1907 through at least 1924. He moved to Topeka in 1888 and became the vice-president and general manager of the Kansas Power and Light Company, Kansas Public Service Company, United Power and Light Corporation, and President of the Kansas Free Fair Association. (Connelley's History of Kansas, V, pp. 2538-39) Other public utility executives who resided in the district were two attorneys, Albert H. Purdy and Keen Saxon at 1198 Fillmore and Malcolm M. Gray, assistant secretary of the public Utilities Commission who boarded at 1191 Fillmore.

In the industrial sector of Topeka the Atchison, Topeka and Santa Fe Railroad employed the largest number of Topekans during the development period of Holliday Park. J. F. Jarrell at 1177 Fillmore began his association with the railroad in 1910. Claude Leonard, auditor, made his home at 1211 Western in 1924.

Edward and Nettie Weymouth Cartlidge were listed in the 1912 City Directory as residing at 1133 Western since 1909. Edward was a tax commissioner for the AT&SF Railway. A Wm. C. Cartlidge (son and claim agent at C.R.I.&P. Ry) was also listed in 1912. Edward and Nettie continued to reside at the address at least until 1929 and Nettie continues to be listed as a widow in the 1942 City Directory. The 1935 City Directory shows Wm. C. and Edna Cartlidge residing in Apt. 6 at The Devon Apartments. Edward Cartlidge died in 1930 and was reported to be one of the most widely known of the Santa Fe pioneers having served 46 years with the railroad when he retired in 1922. His first work with the Santa Fe Railroad was collecting delinquent payments on contracts for the sale of congressional lands in Kansas and he rode many miles daily on horseback to make his collections. He was a "man of great character, strong physique, natural leadership, and since devotion to work and family". (Topeka State Journal, April 7, 1930, p. 1).

Wm. A. Powers, chief chemist for the railroad, was the occupant at 1020 Western. John H. Jones, a Santa Fe Railway inspector, lived at 1114 Western from 1907 to 1916. Edward J. McKernan resided at 1024 Western and was a tool supervisor and laborer for Santa Fe. Many other Santa Fe clerks made their homes in the district as well.

Several residents from the legal profession inhabited the district. John S. Dawson at 1204 Taylor was a Justice of the Kansas Supreme Court, served as state Attorney General (1911-1915), was president of the National Association
of Attorneys General in 1914. Born in Scotland, Dawson had come to Kansas in 1887 as an advocate of dry farming and taught school and was principal in the western part of the state before coming to Topeka. (Blue Book of Topeka, 1910, p. 31, Who’s Who in Topeka, 1926, p. 18) Archibald L. Williams, General Attorney for U.P.R.R., resided at 1195 Fillmore this address for at least 1888-1900, and is first listed in the 1888-89 City Directory. The 1888-89 City Directory also listed an A. (Archie) F. Williams (student) at this address who remains in the 1890-1891 Directory. Archibald L. Williams had been director of the Topëka Northwestern Railroad Company, City Attorney, Shawnee County Attorney, U.S. District Attorney, and Attorney General of Kansas. The 1896-97 and 1905 Directories continue to list both A. L. and Archie F. Williams (lawyer). Archibald and his wife (Elizabeth Cloud Ferguson) both died in 1907 after having four children, one of whom was Myra Williams. Two other children were Burns L. (student at Washburn Law College) and Norma Williams. Myra married Frank Jarrell who lived at 1186 Fillmore. (Topeka Daily Capital, August 29, 1907, p. 1; Who’s Who in Topeka, 1905, p. 131; Andreas History of Kansas, 1883, vol. I, p. 583) The 1912-1916 City Directories listed Samuel N. Hawkes, Assistant Attorney General, at 1107 Western.

In 1916 Sardius M. and Carla M. Brewster and Eliz. Lytle (domestic) were residents at 1101 Western. Mr. Brewster was Attorney General at this time and was the prosecutor in the Finney Bond Scandal of the 1930s. (Markley’s Builders of Topeka, 1934, p. 29; Connelley’s History of Kansas, 1928, vol. III, p. 1290; Illustriana Kansas, 1933, p. 145) Albert H. Purdy, Superintendent of the Edison Company, his wife, Cora Hopkins, and Keene Saxon, an attorney married to Elizabeth Purdy, occupied the 1890s house in 1924. Keene Saxon, an attorney, was secretary and assistant treasurer of Topeka Edison Company in 1905. He later became general superintendent, then general purchasing agent for the Kansas Power and Light, the Missouri Power and Light Company, and associate companies in 1926. By 1926 Saxon had moved to 1217 Western. (1910 Blue Book, 56; Who’s Who in Topeka 1926) Lester Seacat, a clerk for the State Attorney General, resided at 1135 Western in 1916.

Shawnee County Sheriff A. T. Lucas was the original owner-resident at 1191 Fillmore (c. 1909). A farmer, liveryman, and real estate dealer, Lucas began his law enforcement career as a deputy sheriff. O. S. Perkins married Katherine Lindsey, the original owner-resident of the c. 1911 house at 1178 Fillmore. By 1924 Perkins was deputy sheriff of Shawnee County and then elected Topeka Chief of Police and to a seat on the Shawnee County Commission.

Bankers and insurance company executives were common residents of the district. The 1912-1916 City Directories list Geo. A. (Central National Bank cashier) and Gertrude Guild, Herbert H. (student) Guild, and Bertha Wolfe (domestic) at 1032 Western. By 1926 George Guild was vice-president of the Central National Bank and on directorships with several other banks. (Markley’s Builders of Topeka, 1934, p. 106, Connelley’s History of Kansas, 1928, vol. III, p. 1610, Who’s Who in Topeka, 1926, p. 93) Another resident of 1032 Western associated with banking was W. Laird Dean, president of Merchants National Bank. (Markley’s Builders of Topeka, 1956; Connelley’s History of Kansas, 1928, vol. III, p. 1499) Alfred E. Van Petten, president of the Pioneer Mortgage Company, and his wife Winifred, lived at 1228 Taylor along with Matthew B. Van Petten, vice-president of Pioneer Mortgage, and Glenn E. Pratt. Insurance salesman Chas. L. Kendall and his wife, Leota Cooper Kendall, also occupied this resident in 1923-24.
The original owner-resident at 1181 Fillmore was Ike S. Lewis was the secretary of Home Mutual Life Insurance Company. He, his wife, Inez M. Balch, and Kenneth G. Lewis (assistant examiner for the State Insurance Department) were still in residence in 1916. Ike Lewis had been a newspaper publisher before coming to Topeka, was the Assistant Superintendent of the State Department of Insurance, and State Superintendent of Insurance in 1910. (Blue Book of Topeka, 1910, p. 55) The 1907 City Directory lists Thomas B. Brown and Dorothy (student) Brown. Thomas Brown was secretary/director of the Shawnee Building and Loan Association, president of the State Building & Loan Association, and a printer (foreman of the State Printer) for many years. The 1917 Directory lists both Thomas B. and Minnie, his wife, but by 1924 Thomas B. had died and Minnie Brant Brown (widow of Thomas) lived at the address in 1917 with Frank and Dorothy Brown (daughter) Southwick. Frank was the proprietor of an auto supply business. The Southwick family resided there from 1924-1970 when the present owners (Morgans) acquired the property from the Southwicks. Tom and Lois Morgan were the proprietors/operators of Morgan’s Grocery for 20 years at 800 W. 12th (Devon Apartments) until 1986.

The owner/residents in 1907 at 1234 Taylor were Alfred G. and Sophia Lewis along with Mildred M. (student and later teacher) who resided here until at least 1929-30. Alfred Lewis was president (1907) and vice-president (1916) of the Arkansas Valley Town & Land Company. Mildred M. Lewis (teacher) was at the address in 1916. The 1907-1912 City Directories list Wm. I. Drum (insurance agent at 701 Jackson) along with Harmon (student), Robert (student), and Stuart I. (agent Equitable Life Insurance Company of Iowa) at 1218 Taylor. Listed in 1916 were Harmon E. Drum (state agent for Twin City Insurance Company), Robert A. Drum (student), and Stuart I. Drum (special agent for the Royal Insurance Company). The 1924 City Directory lists Nellie Bently (widow of W. I.) Drum as a resident since 1903 along with Katherine Drum (daughter).

Several builders, contractors, architects, developers and carpenters have been identified in the district. Two residents of 1104 Western were associated with housing. Wilbur E. and Meda Bulis were there in 1916 and Wilbur was vice president and treasurer of Lumbermen’s Supply Co. Contractor A. W. Whitsett resided at 1205 Western from 1920 through at least 1931. General contractor Victor O. Drane occupied 1174 Fillmore in 1916. Among the carpenters were J. H. McEwen at 1021 Western and Roy White (1916) at 812 West Eleventh. Adam Glick built the Glick Apartments at 808 West Eleventh.

John Stanton, State architect from 1898-1906, resided at 1211 Western in 1899. Stanton and his wife were long-term occupants of the address. John Stanton was a staunch Republican and the superintendent and assistant architect of the state capitol building, but was replaced in 1897 because of the Populist victory. He was reappointed state architect in 1899 and continued to hold the position until 1909. The firm of Haskell & Stanton erected some of the finest buildings in Kansas and surrounding states such as the McPherson County Court House, Center High School, Horace L. Hall
residence in Topeka, J. R. Burrow’s residence in Smith Center, Smith Center High School. (Topeka State Journal, May 25, 1916, p. 1; King’s History of Shawnee County, KS, 1905, pp. 357-58; Who’s Who in Topeka, 1905, pp. 114-115; Blue Book of Topeka, 1910, p. 144; Blackmar’s Kansas: A Cyclopedia of State History, II, vol. 3, pp. 1347-48) In 1934 Raymond A. Coolidge, state architect of Kansas, and his wife Frances (Wood) and son Thomas Thayer Coolidge were residents at 1178 Fillmore. Coolidge was appointed assistant state architect, a position he held until Governor A. M. Landon appointed him state architect in 1934. (Builders of Topeka 1934, p. 60) W. E. Johnson was a carpenter who resided at 1227 Western in 1888-89.

Not everyone in Holliday Park belonged to “society” and as the post WWII world saw many families leave, many of the old homes were converted into apartments. More modern areas were being developed in Topeka and attracted Holliday Park’s more affluent residents. The decades of 1960-1980 proved to be transitional for the Holliday Park neighborhood with many larger homes falling prey to modern apartments or vacant lots as the large homes became harder and harder to main. To halt this decline, the Holliday Park Neighborhood Improvement Association (NIA) was formed in 1980 followed in a decade by The Society for the Preservation of Holliday Park in 1992. Recent years have witnessed something of a renaissance as people get out to fix up and restore their grand old Victorians. Holliday Park offers over a century of urban life and society. Glimpses of the past in brick streets and stone curbing exist among ancient oaks, maples and cedars. While the surrounding area has experienced changes since the early 1900s with some larger homes being moved or razed or becoming multi-family dwellings, the majority of homes in this district have remained single family homes with long term owners.
