

2 Year Olds

In our two-year-old class, we care for your child's physical needs to give them a great first impression of their Heavenly Father.

Top 5 Things You Need to Know

1 The Service Experience

Your child loves to discover new things. During the lesson time, we provide fun, interactive learning experiences in an engaging atmosphere so they can learn about Jesus in bite-sized pieces. We also have trained leaders to get to know your child and help guide them through each part of the service.

2 What to Bring

You may bring diapers, pull-ups, and extra clothes to class if needed, but due to known and unknown allergies, we ask that you please keep diaper bags, backpacks, and all other food and drink items with you. To avoid personal toys getting broken, we ask that you hang onto them during class. If a comfort toy, blanket, or a sippy cup (water only) is needed, let one of our volunteers know, and we will make an exception!

3 Diapers? Bathroom Breaks?

Diaper changes and bathroom breaks happen during the first part of class time. Outside of this designated time, we will make every effort to recognize any signals your child may make to let us know that a bathroom is needed. For the safety of your child, every room has at least two background-checked adult females to assist your child.

4 Crying Doesn't Bother Us At All!

Don't be alarmed if your child cries at drop-off and pick-up. We understand this is a natural and healthy sign that your child has formed a bond with you. This usually begins in the early months and can continue into the preschool years. Kids with different temperaments will react differently to separation anxiety, so there is no need to feel alarmed if you see other children waving "bye-bye" and going off to play. They may have a different way of soothing than your little one does. Our volunteers are trained to care for your child patiently; however, if we are unable to console them, we will text you.

5 Wellness

We care about the health of your child and the other kids too! Therefore, we ask that all kids who are experiencing a fever of 99.8 or above, vomiting, or have started taking an antibiotic within the last 24 hours not come to class on that day. Additionally, we thoroughly clean and disinfect all classroom items regularly.
