

**IS THE EARTH STILL GETTING WARMER?
ANALYSIS OF 2003-2013 DECADEAL TEMPERATURE CHANGE
FROM TIME SERIES BROWSER FOR ALL STATIONS (a)**

NON NORMALIZED CASE

ALL STATIONS (b)

| | |
|----------------------------------|-----------|
| Stations Downloaded by Model | 7,277 (g) |
| Stations Selected by Model | 7,236 (g) |
| Number of Observations Used =N | 1,664 (b) |
| Average Decadal 2003-2013 | |
| Temperature Change Degrees C (c) | 0.019 |
| Standard Deviation | 0.941 |
| T Test | 0.819 (e) |
| Increase/Decrease | Increase |
| Statistically Significant? (f) | No |

| Stations Downloaded by Model | 574 | 464 |
| Stations Selected by Model | 572 | 462 |
| Number of Observations Used =N | 128 | 99 |
| Average Decadal 2003-2013 | | |
| Temperature Change Degrees C (c) | -0.153 | -0.257 |
| Standard Deviation (d) | 0.979 | 1.113 |
| T Test (e) | -1.771 | -2.297 |
| Increase/Decrease | Decrease | Decrease |
| Statistically Significant? (f) | No | Yes |

- (a) Computed from Time Series Browser annual data.
- (b) See below for stations in each group and for station URLs. As only appx 1,000 stations can be downloaded at a time I used vegetation type to populate 10 buckets containing all stations, from which I then removed all zero readings and those in excess of 2 degrees per decade in absolute value, to exclude stations without data and outliers, arriving at figure for stations with valid data of 1664 .
- (c) Arithmetic average of individual stations' decadal temperature changes derived from annual data.
- (d) Standard deviation of observations.
- (e) Average/(Standard deviation of observations/square root of number of observations).
- (f) Considered statistically significant for absolute value of T-Test equal to or greater than 2.
- (g) Unclear why both these figures are greater than the 7,169 stations apparently in all categories per model

If any URLs below are truncated after converting this Excel file to PDF they are pasted in full in the last box of the class project; also sorry the Coursera infrastructure won't allow Excel files as attachments!
