Total Safety and Health is the ongoing integration of Safety and Health into all activities with the objective of eliminating illnesses and injuries and continuously improving performance.

- Nothing is more important than Safety and Health... not production, not throughput, not profits.

- Accidents, illnesses and injuries are preventable... they are not inevitable.

- Safety and Health is a management responsibility... and Safety and Health can be managed.

- Safety and Health is an individual responsibility... and a condition of employment.

- Safety and Health is a way of life... around the clock, both on and off the job.

- Every task must be performed with a concern for Safety and Health... for ourselves, our fellow employees, our contractors, our visitors, our customers and the communities in which we operate.

*A Commitment to Total Safety and Health is a Commitment to Doing Things Right.*
