At FOUR Months in the Womb:

Your vocal cords were forming, the same cords that help you to communicate with Mom and Dad today!
Your scalp pattern formed, determining which way your hair would grow, and your eyebrows, eyelashes, and hair began growing. Your little heart pumped about 100 pints of blood each day. Your bones started to harden for life out of the womb

Child Connection Activity:

Sing your favorite hymn and illustrate a picture that goes with the hymn.

Family Activity Ideas:

Family hymn sing.
Tell stories around a campfire or the dinner table.
Create play-doh and Q-tip people with all of their bones.
Learn a prayer in a different language.

I Am Created 4 LIFE

4 Months
Psalm 139:13-16

I Praise you because
I am fearfully and
wonderfully made:
Wonderful are your
works:
my soul knows it
very well.

Psalm 139:14

I can use my voice to . . .
