At SIX Months in the Womb:

Your fingerprints and toeprints were fully formed and visible. You could taste and respond to different flavors. You began to have rapid eye movement (REM) while sleeping, and you started dreaming!
You could even smile and wrinkle your nose.

Child Connection Activity:

Use a stamp pad (or washable makers) to create fingerprints. Use a magnifying glass and study your unique fingerprint.

Family Activity Ideas:

Cook a new recipe together or try a new food and discuss at dinner how it tastes.
Create family fingerprint art out of each member's fingerprints or even a maze!
Discuss what makes you unique, and that none else has the same fingerprint as you!

I Am Created 4 LIFE

6 Months
Psalm 139:13-16

For you formed
my inward
parts:
you knitted me
together in my
mother's womb.

Psalm 139:13

How can you uphold life with the unique skills God has given you?
