The cost-effective, low maintenance leader

CAP8® Capsule Filling Machine

Our easy to operate CAP8® is a low-maintenance and cost-effective filling machine that offers semi-automatic operation and reliable performance. The CAP8 is designed to allow you to scale up to production-level volumes without the need for substantial investment.

Specifications

Production Capacity*

Capsule Size	Speed per hour
5.....	17,000–25,000
4-3.....	20,000–29,000
2-1.....	17,000–25,000
0-0el.....	14,000–22,000
00-00el**.....	9,000–15,000
000**.....	7,000–11,000

AAA**, AA**, AAel**, A, B and C: Contact Capsugel's Technical Support Group for details.

* Rates depend on operator's skill level and density and type of material being filled.
 ** Conversion kit required.

Dimensions
136 cm x 77 cm x 191 cm high

Weight
440 kg (970 lbs)

Power Requirements
200-240 VAC 3-Phase on a 20-amp circuit;
WYO or Delta Power

Other
All orders include 1 set of change parts and choice of auger (Spade, One-Way, Two-Way, or Three-Way).
To bring your production on line immediately, we offer an installation package including two days of technical training and up to three days of operator training.

User-friendly Features

A wide array of innovative features ensures years of efficient filling and reliability.

- Table-top pneumatic closing station for easy integration of capsule finishing equipment
- Powder hopper is removable for cleaning
- Easy auger adjustment to change fill weights
- Easy closed capsule length adjustment
- Quick and accurate change part set-up
- “Toolless” changeover of rectifier parts
- Easy speed selection
- Large powder recovery station
- Robust electronic controls
- Easy to remove rotary table and ring carrier assemblies

GMP Features

The CAP8’s advanced technology and components ensure cleanliness and protect product integrity.

- All contact surfaces are made with FDA approved materials
- Stainless steel ring carrier, rotary table and powder hopper
- The internal components of the cabinet are protected against powder infiltration
- Easy to clean

Safety Features

The unique safety features of the CAP8 protect operators and mechanics.

- Remote E-stop for operator safety
- Guards and proximity switch on closing station
- Rectifier guard interlocks
- CE compliant

Optional Features

- Casters
- Fill ring rest tray
- Free-standing vibrator

Support

Capsugel’s highly experienced technical service team is always ready to assist customers. Offering hands-on support for shop-floor operators and managers, they can optimize production performance and help prevent problems before they arise. They will also work closely with your key production and maintenance people to identify areas of improvement and to develop machine-specific action plans.

For more information on the CAP8® Capsule Filling Machine and how it can help improve your efficiency, contact your Capsugel sales representative (see list of worldwide locations on back) or visit us on the web at www.capsugel.com.
