Foiled Utensil Holder

Project by: Penny Ward

1. Trace and cut out utensil holder from kraft cardstock using template. Fold edges in and glue at the center.

2. Trim a piece of red mirror card to 1" x 9.5" to form the band and score it at 2.5" & 6.75". Wrap the band around the holder and glue on the backside.

3. Apply Berry foil to kraft cardstock as directed in the FoilPress manual using the Ivy Vine foil stamp.

4. Die cut with the Torn Edge Circles dies. Die cut another circle just a bit larger from red mirror card and adhere to band as shown.

5. Add twine bow and embellishment.

6. To make the negative, use the leftover foil from above on another piece of kraft cardstock and die cut with the Torn Edge Circle die. Die cut a scrap of kraft cardstock with a slightly bigger circle.

Supplies:

Gemini Foil Stamp Die - "Ivy Vine"

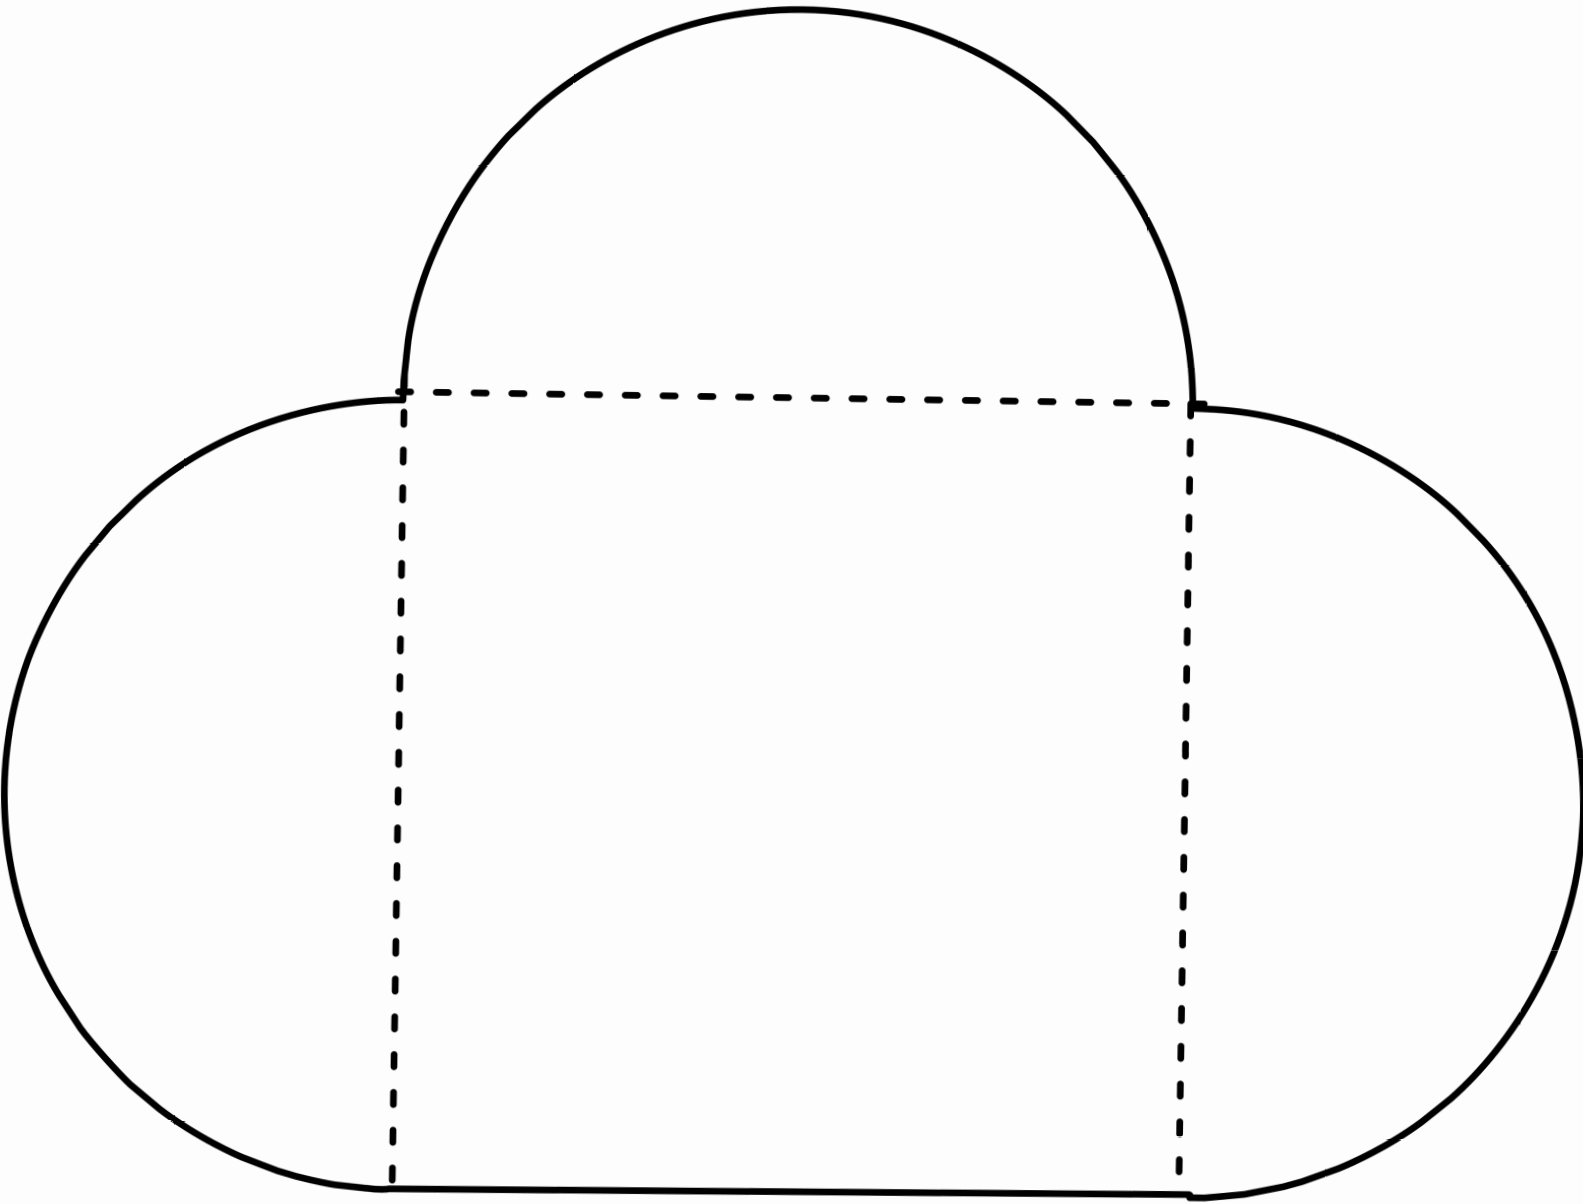

Gemini Papercraft Foil: Berry

Crafter's Companion Luxury Cardstock: Red Mirror Card,

Crafter's Companion Kraft Cardstock

Gemini Nesting Dies - Torn Edge Circles

Other: liquid adhesive, natural twine, brads, Utensil Holder Template

Score on dotted lines.
Fold like an envelope and glue together
