

## PRIVATE EQUITY SERVICES

Partnering with private equity firms to optimize performance across their portfolio, and throughout the lifecycle of their investments.

### Our Value Proposition

CRG Partners brings our operational excellence in business optimization to help private equity firms proactively enhance the value of their portfolio companies.

Our team of dedicated professionals—all of whom have held leadership roles at companies across industries and geographies—has a deep understanding of the financial, operational and tactical factors that drive value.

We leverage proven methodologies, tools and best practices to help identify and address issues affecting performance. We apply methods such as our industry-leading EBITDA+ short term analysis as well as six sigma, lean operating and supply chain optimization disciplines to achieve optimal efficiency and performance for all of the companies in your portfolio.

CRG Partners helps devise concrete action steps to improve profitability, cash flow and, as a result, exit value, bridging the gap between time and performance to achieve operational excellence.

We recognize that every situation is unique and we are deeply committed to providing critical thinking and honest feedback, allowing our clients to maximize their return on investment.
