## OUR WORKFLOW

---

**Dinarys approach** to any project roll out rests on two pillars: **software and business agility** enhanced with the **human-centric design**. Depending on client's departure point we may suggest to start with the **design sprint** aimed at MVP Planning: Creating a complete picture of your solution and deciding on the **minimum valuable product (MVP)** you'll bring to market inside of a **Product Roadmap**.

# STAGE 1: DELIVERING A MINIMUM VIABLE PRODUCT (MVP)

- Requirements collection
- Requirements analysis
- Written specification (backlog)
- Project architecture
- Project planning
- UX/UI
- Iterative development and QA
- Regular demonstration of the results
- Guidelines and instructions for customer
- Support and debug where applicable

**Iterative**

## STAGE 2: DELIVERING A FINAL PRODUCT

- Requirements collection
- Requirements analysis
- Written specification (backlog)
- Project architecture
- Project planning
- UX/UI
- Iterative development and QA
- Regular demonstration of the results
- Guidelines and instructions for customer
- Support and debug where applicable
- Changes upon request (optional)

Iterative

# OUR CERTIFICATES

---

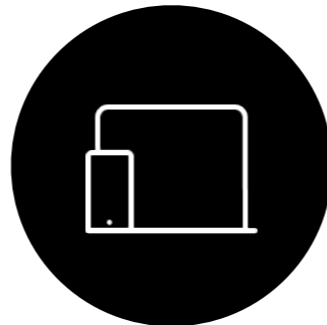

# PROJECT EXPERTISE

---

writing documentation

Payroll & Accounting

## MEMBERS OF ASSOCIATIONS

---

**We are recognized as  
a reliable partner by  
the leaders**

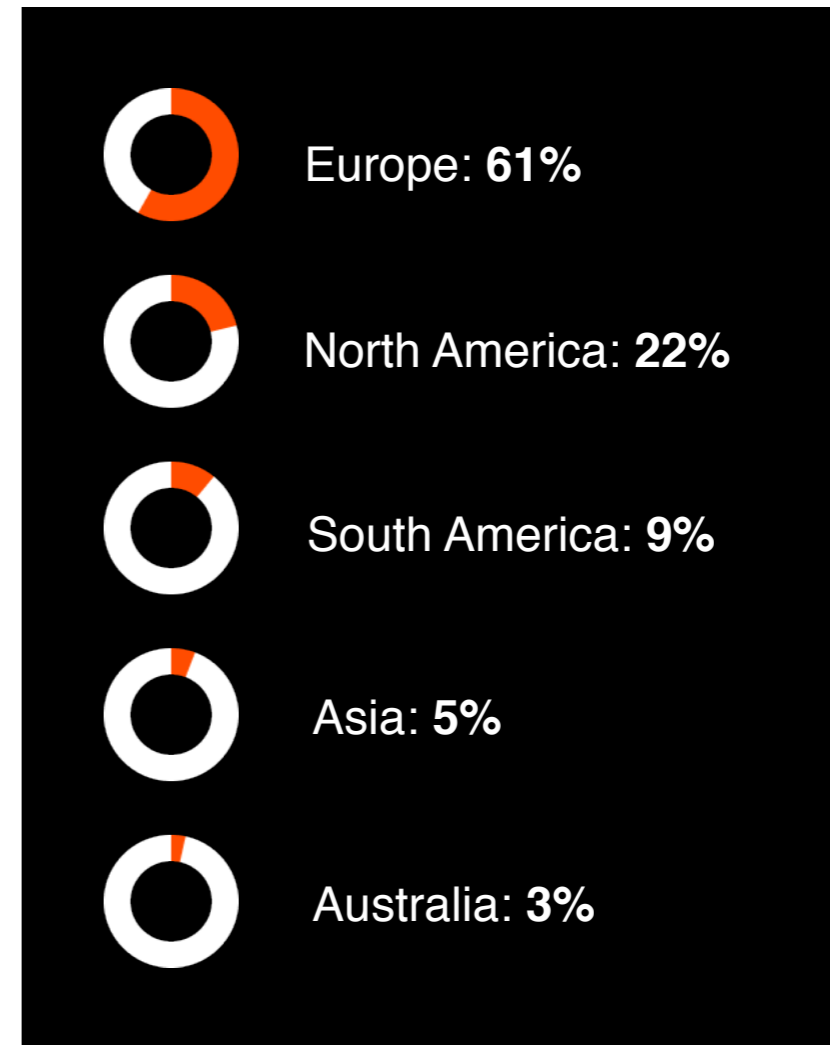

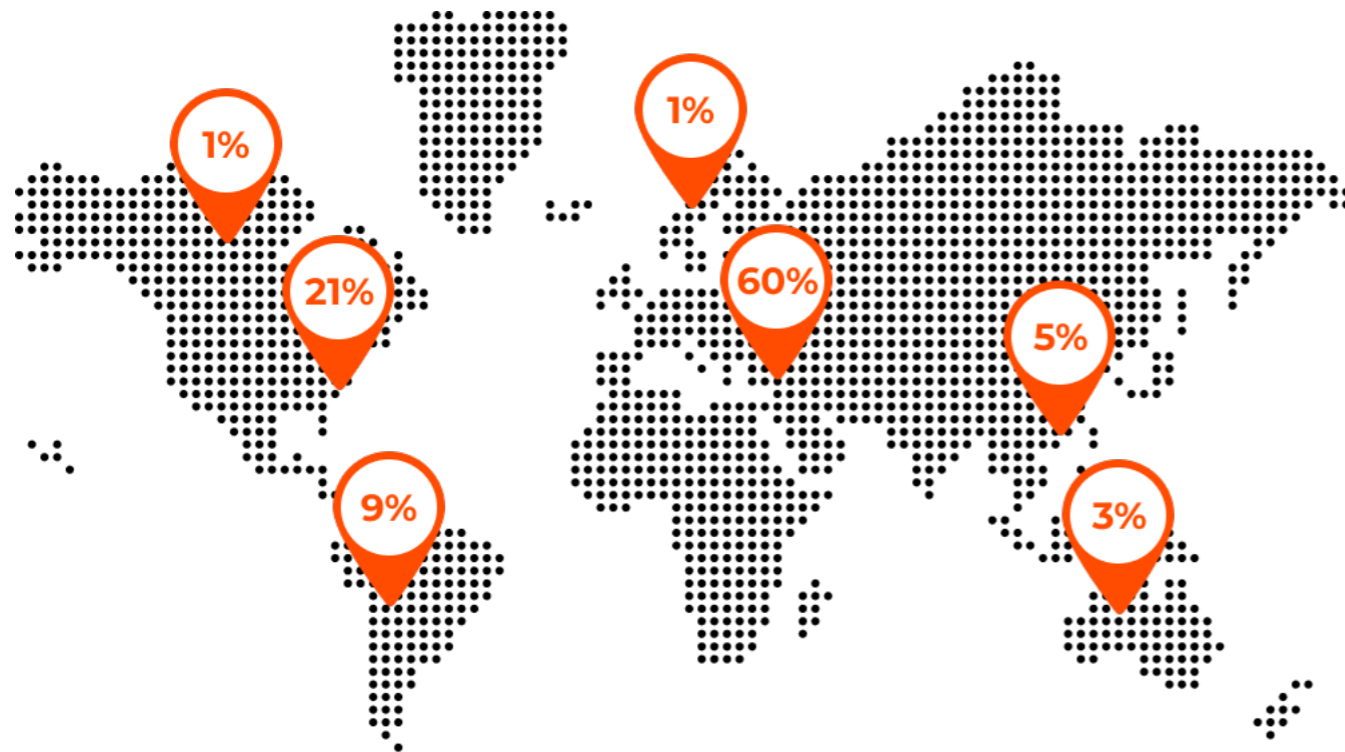

**Händlerbund** is the largest online trade association in Europe, and an important voice in the e-commerce industry. Händlerbund's HQ seats in Germany.

**SIBB eV** is an association for the IT industry in Berlin and Brandenburg. Today, SIBB eV is an established partner of the entire sector in the capital region and a co-designer of the political and economic framework

# GLOBAL MARKET

# OUR APPROACH AND TEAM

Dinarys uses technology to help customer business move to the next level. Our approach revolves around the positive impact on business critical metrics. We use

**Design Thinking Tactics** and **Agile Methodology**

for software development.

We not only create websites and trading platforms for e-commerce, in addition, the team provides in-depth analysis and advice.

|                      |                     |                              |
|----------------------|---------------------|------------------------------|
| iOS developers       | <b>OUR<br/>TEAM</b> | Sales, Marketing, HR         |
| Android developers   |                     | Project managers (PM)        |
| Front-end developers |                     | Business analysts (BA)       |
