

WordPress Development for Design Agency

PROJECT DETAILS

 Web Design

 May 2019 - Jun 2019

 Less than \$10,000

“
"My team was outstanding in their respective fields."

PROJECT SUMMARY

HTMLPanda built the frontend of a WordPress website.

PROJECT FEEDBACK

The website's elegant design and smooth, effortless navigation appealed to customers. HTMLPanda impressed with their flexible approach and fresh design ideas. The team planned their workflow carefully and explained their process thoroughly.

The Client

Please describe your company and your position there.

I'm the business development manager at Panther Design, a premium agency that focuses on quality, innovation, and speed.

The Challenge

For what projects/services did your company hire HTMLPanda?

As a startup, we needed to build our brand and web presence. We hired HTMLPanda to build a professional WordPress website.

What were your goals for this project?

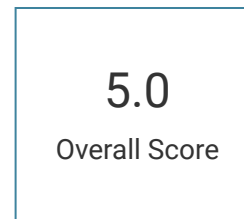

We wanted to design and develop a modern WordPress website that defined our business and satisfied our customers.

 Business Development Manager, Design Agency

 IT Services

 Central African Republic

CLIENT RATING

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you select this vendor?

We found them on a website design and development directory. After a discussion with their representative, we hired HTMLPanda on the basis of their online reviews, feedback, and portfolio.

Describe the project in detail.

They took the time to review my needs thoroughly and create a detailed timeline and scope of work. We collaborated on the website design and they wrote the frontend code. They developed a pixel-perfect website, including a home page, categories and services pages, and company detail pages.

What was the team composition?

They had a big development team. We worked with a developer, a designer, a quality engineer, and a project manager, but the exact number changed depending on what we needed. I mostly communicated with the project manager.

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

HTMLPanda built a perfect website from scratch. After just few months, they delivered the exact results we expected. Our customers loved its design and simple, intuitive navigation.

How effective was the workflow between your team and theirs?

We mostly used Skype to communicate with HTMLPanda. I appreciated their responsiveness to every message. The team was efficient, easing our concerns through their expertise.

What did you find most impressive about this company?

Their best quality was their employees. My team was outstanding in their respective fields. We were impressed with their adaptability, out-of-the-box designs, and robust development knowledge.

Are there any areas for improvement?

No, they were perfect.
