

Massive results through massive, data-driven content deployment.

For enterprise companies, traditional SEO is important, but it isn't enough to drive double-digit growth year-over-year. Building pages & content at scale to cover large content gaps is the only answer to achieving significant and sustainable growth year after year.

For sites with up to millions of pages, or needing millions more to cover critical gaps, MarketPage can deploy content at scale on existing pages or create new highly optimized pages using proven technology and tactics. Our solutions drive not only organic traffic growth, but also enhance the effectiveness of SEM, Display and Email Marketing – a true multi-channel impact.

MMG MarketPage is the secret weapon online giants like Expedia, Staples, Advance Auto Parts and more have used to dramatically increase traffic and revenue.

How We Do It:

- **Create New Marketing Pages** – We can create and manage millions of unique, data-driven marketing pages to capture all the ways people search for your products or services
- **Generate Content for Existing Pages** – We can generate unique, highly relevant, human-written & data-driven content for your existing pages
- **Perform Site-Wide Optimizations** – We can optimize every page on your site to improve indexation and boost your highest revenue pages in search rankings with advanced internal linking solutions.

Who We Can Help:

Large, multi faceted e-commerce websites playing at the regional, nation or global levels in categories like:

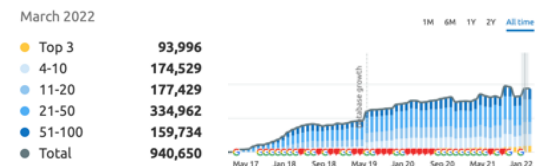

- Consumer Goods
- Heath Care
- Insurance
- Travel
- Real Estate
- Home Service Providers
- Auto Retailers
- And more
