

Instant Resume Access

Acuspire is a **highly automated employment services platform** powered by artificial intelligence. We instantly connect students with employers.

Reduce the amount of time required to search for new positions, reduce the time for employers to find qualified candidates, and provide greater transparency with **real-time reporting!**

Case Study

The Challenge

In 2021, ECO Canada provided career support services to environmental sector new grads and experienced professionals. To serve more jobseekers and employers, ECO needed to either hire more employees or find a force multiplying technology solution.

Enter Acuspire

Before adopting Acuspire's AI-assisted worker placement solution, Eco Canada was able to process 10 job postings at any given time.

A year later, the Acuspire SaaS platform had processed more than **840 employer-added job postings** and **5,700 job seeker resumes**. In addition to achieving a 10x force multiplier, ECO increased their revenue by a factor of 4!

Over
5,700
job seekers

10x increase
in employer
engagement

4x increase
in revenue
