The Approach

How did you find To Get There Foundation?

Referral, Other

Why did you select To Get There Foundation over others?

Great culture fit, Good value for cost, Referred to me, Company values aligned

What was the size of To Get There Foundation's team?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

We started by discussing our idea, which we have carefully drawn up in cooperation with specialists in the field of pedagogy. Using their technological knowledge and experience in the education industry, the Foundation's team advised several changes. Then work began on preparing graphic designs and at the same time programming the application.

As soon as the application mechanics were prepared, we had the opportunity to verify our concept and improve it during the development. Thanks to this, content specialists could quickly modify the initial assumptions.

The Outcome

Describe their project management. Did they deliver items on time? How did they respond to your needs?

We were added to the Foundation's channels on discord, where meritorical / graphic threads were properly grouped and we could talk on anytime. Our comments and detected errors were reported via the form on monday.com, where we were able to keep track of how our reports are resolved. Thanks to the foundation's ingenuity, we were able to finish the project earlier than planned.

What was your primary form of communication with To Get There Foundation?

Virtual Meeting

What did you find most impressive or unique about this company?

The contact with Foundation team turned out to be the most impressive. It happened that only evening hours suited us for online meetings, which was not a problem for the Foundation. Communication on discord turned out to be very practical and fast. It is definitely a partner that we feel is part of our inside team.

Are there any areas for improvement or something To Get There Foundation could have done differently?

We were unable to indicate any area for improvement.
