Challenges

Businesses Face:

No Native Maps: Netsuite does not have a native solution to visualize contacts on a map

Lead Management: With thousands of leads generated monthly, businesses struggle to efficiently manage and prioritize them.

Territory Confusion: Without clear demarcation, sales reps overlap territories, leading to inefficiencies and potential conflicts.

Lack of customer spend data: For direct-to-consumer businesses, it is critical to have geographical customer data to make effective decisions.

Inefficient Supply chain: Having clear visibility into customers/vendors enables y.

**The
Problem**

Introducing QSMAP:

Contact Visualization:

Turn complex regional searches into visible results, revealing the geographical truth of your database.

Efficient Management:

From leads to territories to local deliveries, QSMAP streamlines operations, ensuring businesses reach their customers effectively.

Export Data:

Export the analysis in a CSV for sharing and using

Plug and Play:

QSMAP is built purely for NetSuite so it offers a plug-and-play integration of Google Maps with NetSuite, making geographical data more accessible and actionable.

Customizable & Saved Searches:

With the power of Saved Search, businesses can fine-tune their criteria, ensuring they get the most relevant data.

The Solution

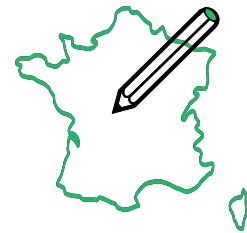

qsm.net

Why QSMAP Stands Out:

Categorize Contacts

Mark and view contacts as Customers, prospects, Lead, Contact, Partner or a Vendor.

Draw On Map

Draw a shape on the map to mark the area you want to analyze for data and get insights from that area.

Customizability

Tailor QSMAP to your unique needs. Whether it's demarcating sales territories or analyzing shipping routes, QSMAP adapts to your business requirements.

Unique Selling Propositions (USPs)

Powerful Features of QSMAP

Geographical Data Visualization

Dive deep into your NetSuite data, visualizing customers, leads, and more on an intuitive map interface.

Efficient Location Management

Locate, view, and export data segments with ease. Whether it's identifying nearby event locations or managing local deliveries, QSMAP has you covered.

Advanced Analytics

From geographical events to territory performance, QSMAP provides the tools for in-depth analysis, driving better sales and marketing decisions.

Seamless Integrations

QSMAP isn't just limited to NetSuite. With potential integrations like Klaviyo on the horizon, it's a tool that grows with your business needs.

Testimonials

Chris Petrauskas

MULTIMEDIA DEVELOPER,
BULLSEYE GLASS CO.

"QSMAP has transformed our approach to segmentation and analysis. It's like working with an extra arm - I can't imagine going back."

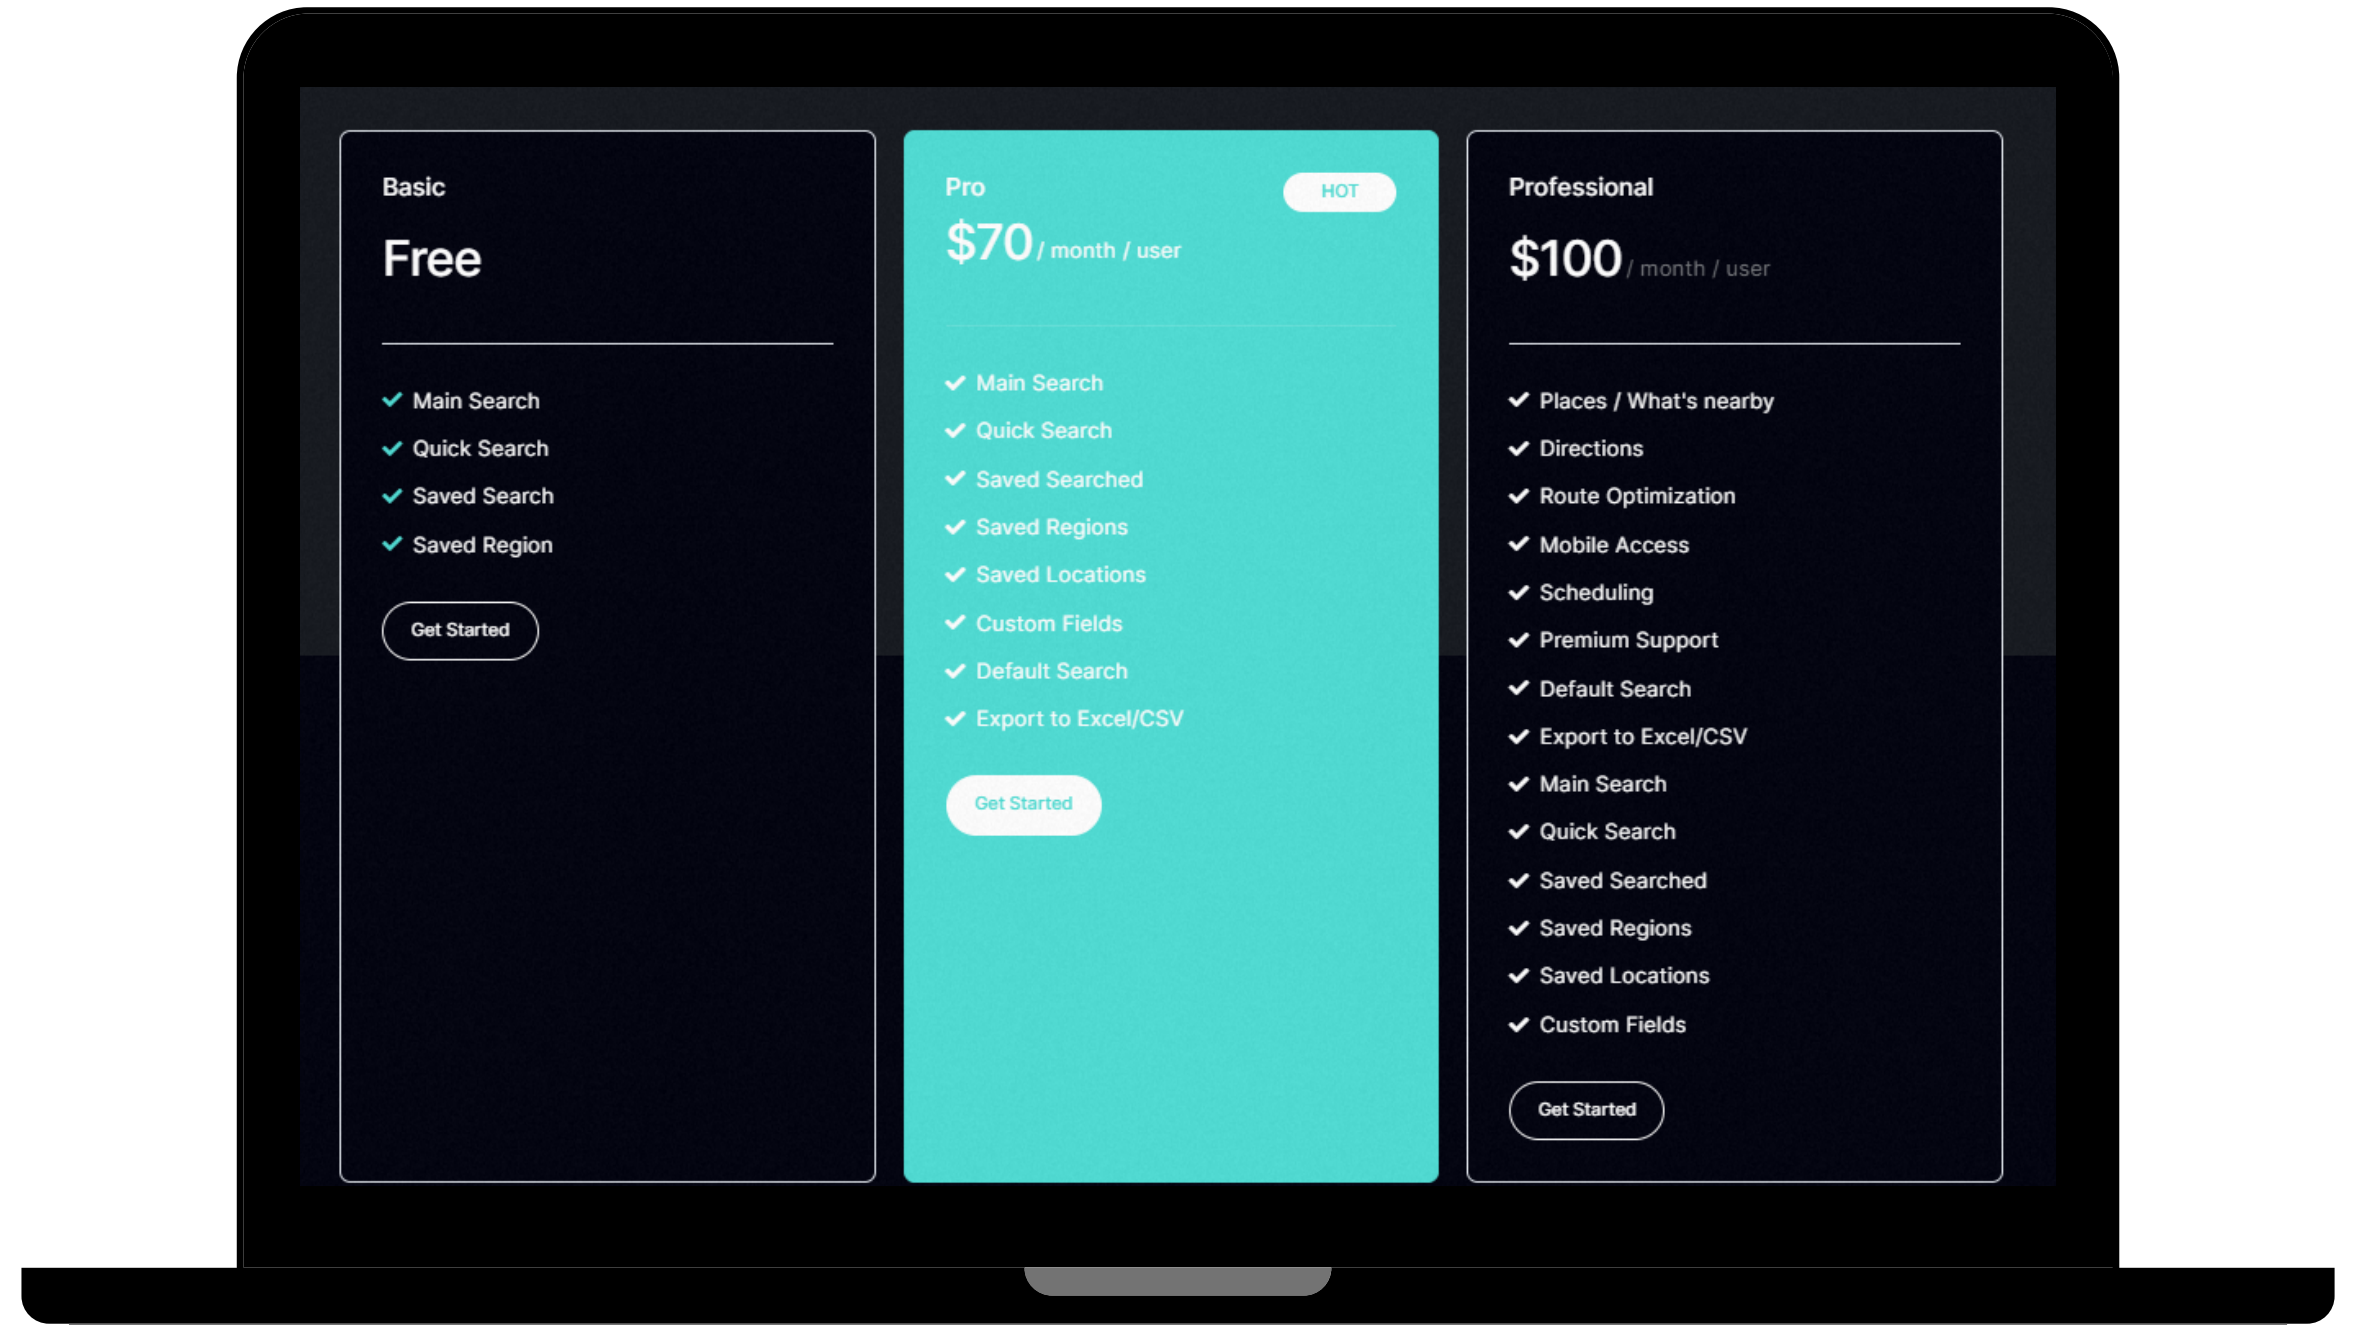

David

SALES MANAGER, PELICAN
INTERNATIONAL

QSMAP's customizability and intuitive design have done wonders for our sales strategy. It's affordable, feature-rich, and the support is unparalleled."
