

# Web & Mobile App Design & Dev for IT Company

## PROJECT DETAILS

 UX/UI Design, Mobile App Development, Web Development

 Jul. 2023 - Nov. 2023

 \$50,000 to \$199,999

 *"They were flexible and adaptable to accommodate our evolving needs."*

## PROJECT SUMMARY

Beesoul LLC provided web and mobile app development services for an IT company. The team was also tasked with creating an intuitive UI/UX design that met the requirements of a healthcare startup.

## PROJECT FEEDBACK

Thanks to the web and mobile apps built by Beesoul LLC, the client improved accessibility to autism support services. They improved user satisfaction and engagement and reduced administrative tasks through automated processes. Overall, the team's planning and communication skills were impressive.

- Developed web and mobile apps for Autism Support

### CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 4.5

Cost: 4.5

Would Refer: 4.5

## The Approach

How did you find Beesoul LLC?

Referral

Why did you select Beesoul LLC over others?

- High ratings
- Pricing fit our budget
- Good value for cost
- Referred to me

How many teammates from Beesoul LLC were assigned to this project?

6-10 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

- Developed web and mobile apps for Autism Support
- Collaborated with healthcare startup for requirements gathering
- Designed intuitive UX and visually appealing interface
- Implemented front-end using modern technologies (React.js)
- Built scalable and secure back-end system (.NET)
- Implemented user registration and authentication with privacy measures
- Created profile management for individuals with autism
- Designed searchable resource directory with filtering and sorting options
- Developed progress tracking tools for behavior, mood, and skill development
- Implemented secure messaging system for communication and collaboration
- Designed schedule and reminder system with push notifications
- Integrated educational materials (articles, videos) for easy access
- Created features for community engagement and support

- Conducted comprehensive testing and quality assurance
- Assisted with deployment and provided ongoing maintenance and support
- Prioritized security, privacy, accessibility, and compliance with regulations.

## The Outcome

### What were the measurable outcomes from the project that demonstrate progress or success?

Increased accessibility to autism support services through the web and mobile apps. Improved user satisfaction and engagement with the intuitive and visually appealing interface. Reduced administrative burden through automated user registration and authentication processes. Enhanced individual profile management, allowing users to easily track and update their information. Improved resource directory with search, filter, and sorting options, enabling users to find relevant information efficiently.

### Describe their project management. Did they deliver items on time? How did they respond to your needs?

Regarding project management they were careful in planning, coordination, and communication. The development team established clear project milestones, deliverables, and timelines in collaboration with us. Regular progress updates and meetings were conducted to track the project's status and address any issues that arise. And yes they did deliver on time and we were more than happy with them.

### What was your primary form of communication with Beesoul LLC?

Virtual Meeting

## What did you find most impressive or unique about this company?

They were flexible and adaptable to accommodate our evolving needs which I find impressive about them.

## Are there any areas for improvement or something Beesoul LLC could have done differently?

I think their streamlined feedback loop can be improved which can help in addressing any issues or changes in a timely manner, ensuring alignment and avoiding misunderstandings. Other than that, they are very company to work with. HIGHLY RECOMMENDED.
