CUC Software, Inc.

CUC Software, Inc. has been providing software for contractors for over 30 years. Our Billings staff provides programming, sales, support and training services for customers located throughout the USA and Canada.

We are Montanans with an extensive background in the construction industry. In fact, our software was originally developed in an operating HVAC company.

We have various industry affiliations, including membership in ACCA, and have been named the preferred software vendor for the Heating, Refrigeration and Air Conditioning Institute (HRAI) of Canada. We've also partnered with NexTraq to integrate GPS technology, and various flat rate pricing systems to help customers wishing to use a flat rate pricing model.

"This program is great for both service and lead tracking for sales. It is a well rounded software program and we highly recommend it."

Lea, Advantage Airtech

Job Costing, Accounting, Service Dispatching, Maintenance Contracts, Inventory, Equipment Tracking, Payroll... and so much more

For more than 30 years, we've been

Helping Contractors Grow... and Take Care of Their Customers at the Same Time

C U C
Software, Inc.

Software with service and support you can count on to help your business grow

Our Customers

Our customers include HVAC, sheet metal, electrical, plumbing, roofing, fire prevention, and general contracting companies throughout the USA and Canada. Our software is geared for small to mid-sized contractors who do residential and/or commercial work. Many are family owned businesses who place a great deal of trust in our company to meet their needs. It is our goal to provide the tools and information to help them grow and operate their businesses competitively.
