

# CAST SOME LITE ON YOUR QUALITY SYSTEM

It's time to take a good look at how spreadsheets or other makeshift calibration tracking is affecting costs, productivity, standards compliance and your stress level. Make the move to a professional, industry-recognized calibration management software solution today.

## GAGETRAK LITE

CALIBRATION MANAGEMENT SOFTWARE

Affordable and easy to use, GAGetrak Lite provides effective gage, calibration, custodian and procedure management as well as convenient ad-hoc reporting, all within a simple, touchscreen-friendly interface. GAGetrak Lite offers the exceptional, auditor-trusted quality control for which GAGetrak is famous, all in a budget-priced package for quality teams that need an uncomplicated calibration management solution.

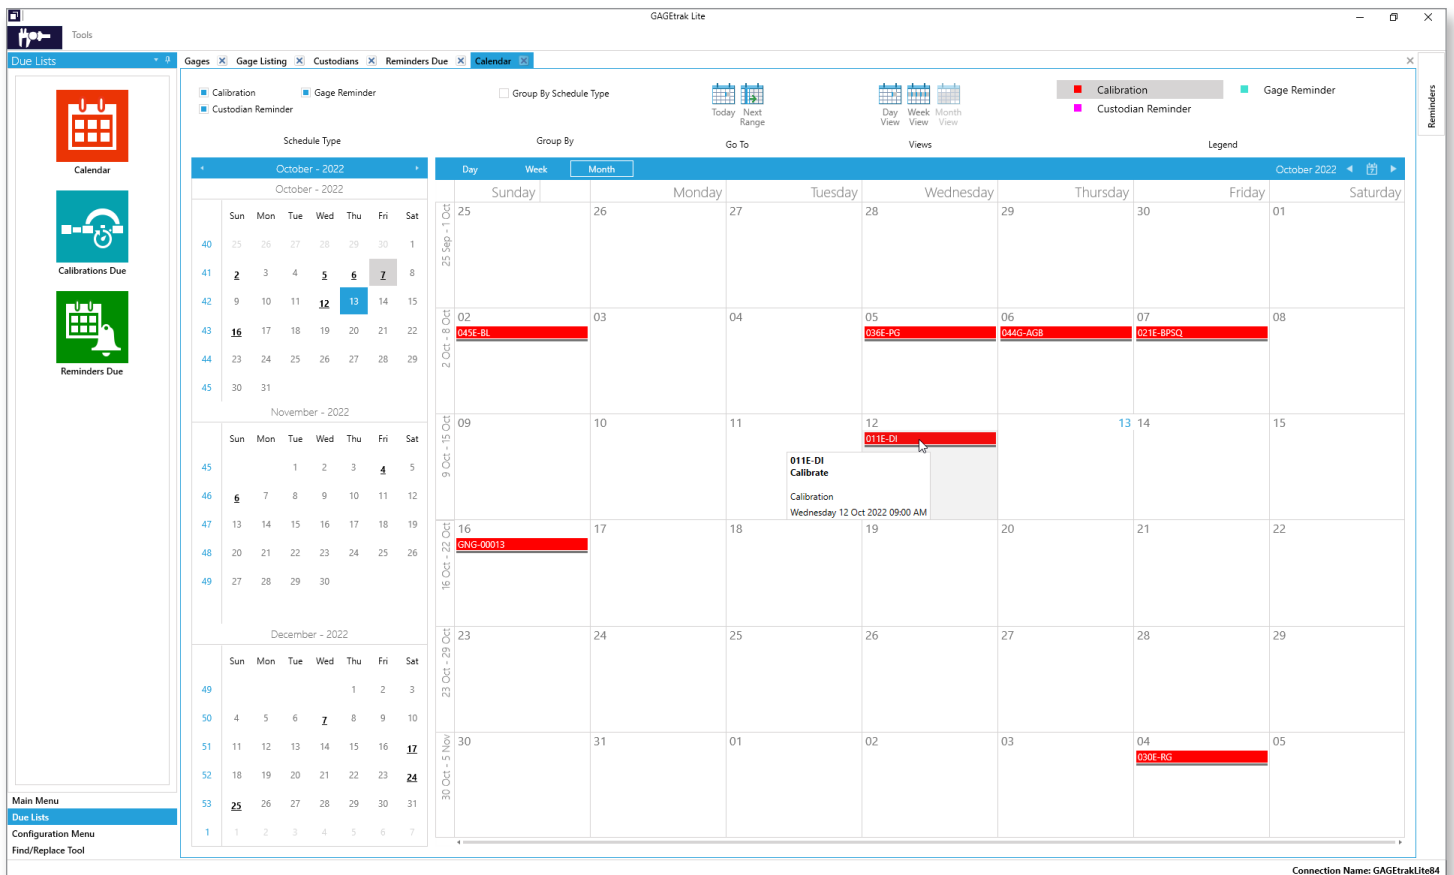

## FEATURES

- Effectively track your measurement and test equipment with a simple, easy-to-use interface
- Quickly and consistently create new gage records with pre-defined gage templates and cloning
- Maintain comprehensive calibration and measurement history with standards traceability
- Innovative split-screen views: simultaneously display record details alongside a data grid; views can be saved for a personalized experience and shared with others as well
- Schedule calibration due dates following common scheduling standards and even enable schedule pausing when gages are stored
- Reschedule gage due dates with drag & drop functionality in calendar view

- Automatic email notifications for gages coming due or any other reports you choose
- Reminders: create shipping reminders before gages come due, eye exam reminders for team members, etc.
- Automatic numbering for gage IDs and calibration certificates
- Create or attach calibration procedure instructions and link them to gage and calibration records
- Custodian management: associate suppliers, staff and customers directly to gages based on their various roles
- Support for gage and calibration label printing: various sizes, including 2D barcodes
- Optional group-level security
- Developed in Microsoft .NET and Entity Framework, which supports deployments in Client/Server database environments employing Microsoft SQL Server, Azure Managed SQL or PostgreSQL
- Create a single database for all of your devices or create and switch between multiple databases
- Available in English and Spanish; supports installation on Spanish operating systems or on U.S. operating systems running Spanish regional settings

The screenshot displays the GAGetrak Lite application interface. On the left is a navigation menu with icons for Gages, Calibrations, and Custodians. The main window is split into two panes. The left pane shows detailed information for a specific calibration record (Gage ID: 001E-GBLK, Last Calibrated: 5/29/2022 12:00 AM). The right pane shows a table of calibration records.

Gage ID	Calibration E	Gage Type	Calibration T	Done By	Next Due Da	Results

## WHY MAKE THE MOVE?

Getting started is quick and easy, whether you're starting from scratch or need data import services. GAGetrak Lite installs in minutes and with its simple interface and cloning tool, you can begin entering and tracking your devices right away. Using GAGetrak Lite instead of spreadsheets, index cards or the like, will not only help you improve efficiency and reduce costs, but will also help you assure compliance with ISO 9001:2015, ISO 13485:2016 and AS9100 and pass audits with ease.

## JUST 30 MINUTES...

That's all the time it takes for a personalized web demonstration of GAGetrak Lite. We'll show you how it works and how it will benefit you and you'll wonder why you didn't do it sooner. Contact us today to schedule your demo or to jump right into a free 30-day trial. If GAGetrak Lite doesn't suit your needs, be sure to ask us about GAGetrak Pro!
