

# Standard or Lite?

*that is the question ...*

Whether you need one or multiple stations, Enterprise functionality to manage multiple stores, or simply the efficiency of quickly taking orders, Ordyx has the solution that fits your needs. Ordyx understands that your restaurant is different, that your needs are specific, that one approach does not fit all.

Contact us to customize Ordyx your way.

## Lite

Ordyx Lite is Point of Sale (POS) for you now. What you need now, how you want it now, and how you can afford it now. We use the latest technologies to provide you with a solution that is designed to help you run the day to day operations of your restaurant from anywhere, anytime.

Whether you are running the first of many quick service establishment locations, or want to better analyze the sales of your food truck or hot dog cart, Ordyx Lite can help you. Our Lite solution provides you with vast functionality that is always growing, extensive industry experience, and a reliable technical support team. As your needs grow, your POS can grow with you. Upgrading from Lite to Standard Ordyx is seamless.
