TRACEABILITY

Comply with Federal & Local Government Regulations. Each tote, carton, or pallet can be traced back to it's origin. SIMBA can print labels faster than you can put them on the boxes!

PRODUCTION RECORDED MINUTE-BY-MINUTE

SIMBA records production as it happens. The easy-to-use touch-screen provides variable product data, and allows for weight calculation by glaze, gel pack, box tare, manual entry, or directly from a scale.

ACCURATE INVENTORY

SIMBA keeps detailed inventory records including recording any Re-Box activities. The label defines each box's Attributes (Size, Grade, Weight, Etc.) and Inventory can be tracked by multiple storage locations.

SHIPPING INFORMATION IN DETAIL

With the Van Loading feature, SIMBA records which carton or pallet was loaded on what van. A bill of lading and a manifest are created with weight automatically calculated.
