## PRODUCE TRACEABILITY SOFTWARE

### *Enterprise Level*

  
Dynamic Systems Inc

- Print Compliance (GS-1) Labels
- Increase Productivity
- Track by Case and Pallet
- Comingle and Repack
- Track Inventory by Location
- Shipment Verification

*We have over 30  
years' experience in  
Food Traceability.*

#### TRACEABILITY

Respond to Customers' Produce Traceability Initiatives by printing GS-1 labels. Each package, carton, or pallet can be traced back to its origin. SIMBA can print labels faster than you can put them on the boxes!

#### ACCURATE INVENTORY

SIMBA keeps detailed inventory records, tracing the carton to a location or accumulating cartons onto a pallet. Move the carton, remove it from one pallet and put it on another—all is tracked by SIMBA.

#### PRODUCTION RECORDED MINUTE-BY-MINUTE

SIMBA records production as it happens. All production information is recorded in detail (product, lot, carton number, date, etc.) when the label is printed.

#### SHIPPING INFORMATION IN DETAIL

With the Van Loading feature, SIMBA records which carton or pallet is loaded onto what van. A bill of lading and a manifest are created with weight automatically calculated. This complete record eliminates customer short-shipment disputes.
