

Bethesda, MD

June 23-25, 2018

Washington, D.C.

Be a sponsor of the 2018 unite@thehill and help advocate to ensure important legislation officially becomes law!

Join CSF as we storm Capitol Hill to make a difference for people living with Chiari malformation, syringomyelia, Ehlers-Danlos syndrome and many other related disorders. Since we began our quest, Congress has passed important legislation like the 21st Century Cures Act which promises to fund more innovative medical research, especially for debilitating neurological disorders which are often overlooked for governmental funding.

This year, there will be a full-day patient conference featuring advocacy training seminars to educate more people and keep the forward momentum in Congress moving.

For more information, please visit: csfinfo.org/uniteatthehill

Be the key. Become a sponsor.
