

New Director of Production

Memo April 25, 2012

To: All Staff

Dear Staff:

I'd like to introduce Jason Dildine who is starting at Entercom Seattle as the Director of Production on May 1. Jason will be the point person for the production at all stations and he will report to Jack for sales and Dave for programming.

His job responsibilities will include coordinating production services for all stations. He'll work with sales, programming, and promotions and will manage the production assistants Dan, Kevin and Cheryl.

We've hired John to carry out our new vision of how Entercom Seattle needs to adjust to the needs of our listeners on air, as well as the additional programming we have been uploading to the station websites.

Jason hails from Chicago where he spent over 10 years as production manager at legendary stations like WLS and WXRT. His degree is from LaSalle University where he majored in communications and minored in marketing.

Join me in welcoming Jason. His office is outside the main production studio next to KKWF and his extension is 543.
