

Editing Testimonial

On a scale of one to four, one being high and four low, I would rate the quality of work from LeeNurseCopywriting as one. In addition, the work was completed on time and it more than met my expectations.

Lee took the time to really understand the subject matter (architectural-technical) of my dissertation, and she worked through every detail imaginable.

In addition, she informed me regularly of her progress. Her time management on the project was such that I was able to work with her with ease, devoid of stress.

As a testament to how much I like her work, I will add Lee's name to my PhD thesis as an editor. It is without hesitation, then, that I recommend LeeNurseCopywriting to anyone seeking top notch editing services.
