

Hi there,

I just wanted to send a quick note to thank you for your interest in Asset Panda. I'm honored you've taken the time to test our product. When I founded Asset Panda, I knew there had to be a better way to deal with assets getting lost or mismanaged. It all started when a friend's belongings were lost in a fire, and I knew it was time to develop a solution.

I go through our records every day and look for people who didn't activate their subscription during the trial period. You're on my list! I'd love to hear about your experience with the product. (If you did make a purchase, sorry, my mistake).

Obviously, I want everyone to find Asset Panda great from day one, so any feedback you have would be greatly appreciated.

Being CEO does have its privileges, so here's a special offer for \$300 to help maximize your system set-up. Just use the code **300off**. The discount will only be valid for a couple days, but then the lawyers tell me it has to expire, so let me know what you think.

I try to reply to everyone, so please know that your thoughts aren't going into some black hole. We pride ourselves on providing the best customer service in the business, so don't be shy with any comments or questions.

Thanks,

Rex
Founder, Asset Panda
