## DIRECTOR'S NOTES

*The decade of the sixties was a controversial era in American history...a time of political upheaval, changes in beliefs, searching for self, fighting for civil and human rights, demonstrating against war, nuclear armament, pollution. It was also a time of great economic stability where the majority of Americans observed the social and political unrest from a safe distance, going about their own lives seemingly untouched.*

*The most difficult decisions in putting this show together involved the vast amount of music, issues, causes to depict. Often we had to eliminate major issues, or cultural influences due to lack of time and show length...However, we hope that the feeling of the sixties comes through.*

*I would like to thank Debbie Lacey who originated the idea for AN ERA IN TIME, and members of my acting class who gave so much input with the dialogue and mimes.*
