Who Are We?

SINAI operates five schools for Jewish children with significant learning, developmental and other disabilities, as well as programs for adults with developmental disabilities.

Individualization

Because of the broad spectrum and complexity of the challenges faced by our students, SINAI tailor-crafts a highly individualized program for each student based on his or her individual needs.

Inclusion by Design™

All of SINAI's schools are located within partner Jewish Day Schools, and a carefully designed inclusion experience is a major component of each child's individualized program.

Educational Excellence

SINAI is the only Jewish special education school to be accredited by the prestigious Middle States Association of Colleges and Schools.

Serving New York City

About 45% of SINAI's students are New York residents. Often, children come to us after struggling for years in a public school or private day school that has been unable to meet their needs. At SINAI, these children thrive.

Our Children Need Your Help

With our 1:2 teacher-to-student ratio and many specialized therapies and services, we undertake extraordinary costs in order to meet the unique needs of each of our students. While we do everything we can to make sure that financial difficulties don't stand in the way of any child who needs us, we need your help.

Dear friends,

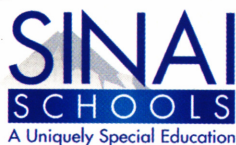

Beatrice and I are so proud to be honored at this year's SINAI Benefit Dinner. SINAI is extremely dear to us personally, as we have watched our grandson, NAFTALI's transformation from a struggling student to a happy, thriving child since he began school there.

Although SINAI is not well known to people outside New Jersey, 30% of the students live in New York City, and another 10% in Rockland County. They, like our grandson, make the commute every day, because there is no other school in New York that serves Jewish children with such a range of disabilities within inclusive, modern Jewish Day School settings.

We hope that you can join us at the dinner to learn more about this incredible school. At SINAI they are doing more than just educating children with special needs - they are transforming lives.

Please give generously and with open hearts.

Sincerely
Cantor Joseph and Beatrice Malovany.

*...won't you share your **hearts** with our children?*

The artwork you see throughout this invitation is comprised of hearts drawn by SINAI students.

The Hebrew word "lev" – לב – corresponding with the number 32, means "heart."

Our students, who are challenged with a range of disabilities, share their hearts with you in celebration of our 32nd year.
