

Ballston Spa August 26th 1805

My beloved sister

(At last we have arrived at the springs I have of-
ten wished that you were with us enjoying the delightfull waters I
have no doubt you will recover in a short time your former health
but however hope that when you receive this that you will be as
well as I am. My man is going on his rout on Sunday next when
I shall return to you I spent a few days with our
chapt. The Doctor was here yesterday but has now left it
for Saratoga, we were there on Wednesday I was very
much pleased with the waters. There are only one
hundred & fifteen persons in this house among which
are about three Philadelphians viz Mr Lenox

Miss Hearn & Mr Bee. he inquired very particularly after
you. we stay at Lons Laucei that is to say in English Lows.
~~It~~ is almost impossible therefore I must begin to
conclude. Give my love to all the dear family.

I believe me to be your
affectionate brother
