A Child's WORLD

Remember your first fears of being home alone, the comforting and soothing melody you would hear before bed time, the joy and amazement of discovering the world step by step? All those memories could be captured in a work of art or music. You can do it too!

Color vs Black & White

Explore the power and subtle differences between color and black and white photography. Observe which one has more power and mystery.

This event is sponsored by Michigan Arts Council and Cultural Affairs, the National Endowment for the Arts, and the American Romanian Festival Inc. Funded in part through Meet The Composer's MetLife Creative Connections program.
