CANON PRINTER CUSTOMER SUPPORT

**FIX CANON
PRINTER
ERROR CODE
5B00**

Call: +1-855-560-0666

Canon tech support Some users are not in technical stuff and they avoid doing any of these jobs. Some of us are afraid of doing anything such as technical diagnosis on these devices. People who can not be involved in technical troubleshooting at Canon printers should speak with the Canon tech support number team and those who want to troubleshoot their own problems should try them:

Change the waste ink-absorber

Changing the waste ink-absorber will have a positive effect on such matters and will Help us eliminate many such errors. Also, proceed with additional instructions:

1.Press “power button”

Whereas the printer is closed and connected to the main power supply board. Press the Stop / Reset button on it and press the Power button

Press "Stop / Reset Button"

When your canon printer is on, press the "Stop / Reset" button twice while holding down the power button

Move to service mode

Your printer will go into service mode when following the above steps

Press the "Stop / Reset" button

When the power light is green, press the stop / reset button twice

(Every time the orange and green LED light starts with orange by pressing the stop / reset button)

Note: Be sure to press the button 4 times to reset the waste ink counter.

Number of Reset Button Pressing LED Function Comments:

0 times green power off

1 time Orange Service Pattern Print

2 times Green EEPROM Print

3 times Orange EEPROM Reset

4 times Green Waste Ink Counter Reset

Please turn off the printer.

(It must be closed) then turn it back on again. Now the Canon printer error code 5B00 has been resolved. If not, then go to the next solution. Canon printer tech support number + 1-855-560-0666 for additional help Talk to the team
