with some additional ~~expense for~~ extension of irrigated areas required for growing a good variety of fodder and food crops.

He is also of opinion that in due course of time Shahadadkot farm should be developed into another research station in the Right Bank. But the work of development at Malir farm might be taken up at once and flocks of sheep, goat and possibly poultry added to the stock on the Malir farm.

A livestock research station indicated on the above lines will be a great asset to the province for dissemination of useful knowledge to the breeder and cultivator who subsists on Animal Industry and animal products like milk, ghee, Butter, Wool, mutton, hides, bones etc.

The Research Station will be under close supervision of the Live Stock Officer and will be manned with suitably qualified staff who should be able to conduct scientific work on specified lines.
