The Clifton Residents desire to start water service at Clifton one hour later as people rise late during the winter & therefore are unable to make full use of supply as working at present.

2. The Convent block of Clifton is not satisfactorily cleaned because of want of water near it - It is proposed to provide a pipe stand near it in the law front.

To,

The Land Manager & Architect, Karachi Municipality.

Dear Sir,

I have seen your letter No L. C. C 90 of 5th August posted on a pillar of my building today. I would request that any such letters may please be delivered at my residence on the road and quarter noted at the top instead of being pasted with gum on a wall of the building, which is likely to give a wrong impression to others that I do not accept letters of the Municipality.

I have appointed Mr. Jerandas as my Architect in place of Mr. Daryanomal and given him Form A duly signed more than a fortnight ago. I believe the same has reached you ^{full} by this time. I knew it/well that no construction is to be done without the supervision of a licensed architect and there need be no apprehension on this score.

Yours faithfully,

Prabhus G. Malkani

Retired Mukhtiarkar.

Reply:

That the notice in question was affixed on the foreman as he had refused to take delivery of the same from the M. M. M.

That the "A" form referred to was received only on 16.8.39 and the same being incomplete without the licensed architect's signature, is returned herewith for the purpose of getting it signed by him

Yours truly

L. M. A.
