SUBJECT 4

A LIVE STOCK RESEARCH STATION FOR SIND FOR ALL CLASSES OF LIVESTOCK.

NOTE BY THE DEPUTY DIRECTOR OF AGRICULTURE, GOVT. BANK.

There cannot be two opinions about the necessity of a central Live Stock Research Station in Sind with respect to genetical and other work in all classes of Live Stock like Cattle, goat, sheep, poultry etc. It is presumed that a well experienced ~~expert~~ expert in animals genetics will be available to be in charge and control of the proposed research station. The proper place to locate this station will depend on the amount of money available for capital, and recurring cost. Besides, if it is intended to have animal nutrition section also, then all facts and circumstances taken together, the choice to ~~which~~ locate the said station will have to be Sakrand. At Sakrand good many facilities already exist and hence the capital and recurring cost will be less if the station is located at Sakrand. The next best choice for locating this station will ^{be} ~~the~~ Willingdon Cattle Farm, Malir. The importance in favour of Malir is its mild climate
