The British government, however, arranged the matter amicably, but he soon, again, became erratic, left his territory, to which, however, he returned, but, owing to the discontent of the nobles, he was obliged to abdicate in

ATTRACTIONS.—The *Hill Fort of Songurh* (3 miles distant), is well worth a visit. The fort, which is 2 miles in circumference, has an elevation of 4,162 feet above the sea, is of a triangular shape, and almost unapproachable, except by the gates.

369¾ miles. Military Authority. Officer Commanding the Hyderabad Subsidiary Force at Secunderabad. Encamping ground, E. and W., near the Nandinee river. Bazaar, well supplied. Warehouses for the cleaning and packing of cotton. Water, scarce in the hot season.

DAWKS.—See Table of Distances, Madras Presidency.

This large, populous place, is of very great commercial importance, as it contains the establishments of some of the most influential merchants of Upper India, who principally trade with the cotton planters, whose standing crops they purchase, and have them picked, cleaned, and packed for exportation, by their own employés. In 1842, one merchant sent no less than 100,000 bullock loads to the City of Palaces, *Calcutta*. — Here the Nizam levied the *oppressive* transit duties on all produce transported through this place. The *Hoondakurs* always sent messengers to the contractors who farmed the tolls, to ascertain their respective rates, consequently the produce was always sent by the Hoondakurs, *via* the cheapest route. The Brinjarries, "carriers," invariably travelled by the line which those persons selected. Since it has been ceded to the British Government the transit duties have been abolished.

ATTRACTIONS:—The spot, near the foot of a hillock, where Colonel Mackenzie rescued from destruction (the natives having begun to use them for building purposes), the *Buddhist Sculptures*, some of the slabs of which are placed in the Calcutta Society's Museum, and remainder in the East India Museum, in the India House.

Its entire course is 250 miles, nearly from N.W. to S.E., and at about 180 miles receives the Payne Gunga. In the monsoons it is so full that boats of moderate burthen can ascend about 100 miles above its mouth; pass on to * *Bimoor*, 1½; thence to the right bank of the *Wurda* river, ½; and we then enter

ELLWOOD'S PATENT AIR CHAMBER HATS.

CAUTION.

The Patentees having established the validity of their patent in an action tried on the 20th and 21st days days of June inst., in the Court of Common Pleas at Westminster, before Lord Chief Justice Erle and a special jury, in which Ellwood and another, of No. 24, Great Charlotte-street, Blackfriars-road, in the Borough of Southwark, wholesale hat manufacturers, were plaintiffs, and Christy, and others, of No. 35, Grace-church-street, in the city of London, also wholesale hat manufacturers, were defendants, and the jury having by their verdict found that the above-named defendants had infringed the plaintiff's patent, and that the invention was new in England and India at the date of the letters patent, we, the above-named plaintiffs, do hereby give notice to all manufacturers, dealers in, and sellers of hats, caps, or helmets, that we shall proceed by suit in Chancery against all persons so manufacturing, dealing in, or selling hats, caps, or helmets constructed on the principle of "Ellwood's Patent Air-Chamber Hat," unless the previous consent of the patentees be obtained; at the same time reserving to ourselves the right of taking proceedings against prior infringers.—Dated this 24th day of June, 1864.

☞ *Orders should be accompanied by a remittance or reference.* [46-Lo.

To those who reside or are about to reside in Tropical Climates, the following Preparations are indispensable.

SARSAPARILLA.

WILKINSON'S
LATE
BRIDGE'S
ESSENCE OR FLUID EXTRACT OF
RED JAMAICA
SARSAPARILLA,
IN PINTS, HALF-PINTS, AND QUARTER-PINTS.

A Pint Bottle is equal to Three Gallons of the ordinary preparations.

"A superior preparation, that may always be relied on."—SIR ASTLEY COOPER.

"We are in every respect satisfied with it."—LANCET.

"I recommend Bridge's Sarsaparilla."—DR. JAMES JOHNSON.

"Latterly, in consequence of much debility subsequent to Cholera, I have freely used your preparation myself with complete benefit and success."—J. POETT, M.R.C.S.

IMPORTANT CAUTION.

The Public are cautioned against *cheap* preparations of Sarsaparilla, which, instead of being what they profess, are nothing more than a *decoction* of *common herbs, sweetened* with *Molasses*, and flavoured with American Winter Green. The genuine has "THOMAS WILKINSON (late BRIDGE & Co.), 270 Regent Street, London," engraved on each bottle.

QUINTESSENCE OF JAMAICA GINGER AND CAMOMILE.

Ginger has long been deservedly known as an excellent domestic medicine, and combined with camomile, it is the most efficient stomachic tonic known, for while the ginger relieves the stomach from distension and flatulency, arising from impaired digestion, the camomile strengthens the coats of the stomach, and by that means gives it a healthy and invigorating tone. So HIGHLY CONCENTRATED IS THIS PREPARATION, IT IS UNIMPAIRED BY AGE OR CLIMATE, AND WELL ADAPTED FOR EXPORTATION.

NO FAMILY SHOULD BE WITHOUT IT.

AGREEABLE SEIDLITZ POWDER,

In One Bottle, protected by a Case, with Measure and Spoon included.

The advantage this Preparation possesses over ordinary Compounds is the perfect combination of the solid ingredients of the Seidlitz Spring in ONE COMPOUND POWDER. It is very agreeable to the palate, and, by a chemical process, more active than those prepared in the usual way (mixing two powders together), and saves much trouble. It is well adapted for EXPORTATION, or TRAVELLERS by LAND or SEA, being unimpaired by AGE or CLIMATE. It is an agreeable effervescing draught to allay Fever and Thirst.

AROMATIC TINCTURE OF QUINOIDINE,

For the prevention of Fever, Intermittent or Remittent, Ague, and other effects of Malaria. No person exposed to the influence or predisposing cause of Fevers should be without it, *for if taken in small doses daily, the system will become so thoroughly impregnated with its principles, as to be rendered proof against all attacks of Contagion or Malaria.*

THE ABOVE PREPARATIONS ARE MANUFACTURED ONLY BY

CAUTION.

CHLORODYNE.

IN CHANCERY.

Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne—That the statements of the Defendant Freeman were deliberately untrue, and he regretted to say that they had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July 13, 1864. The Public, therefore, are cautioned against using any other than DR. J. COLLIS BROWNE'S CHLORODYNE.

This INVALUABLE REMEDY produces quiet, refreshing sleep—relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body—without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

Cholera, Dysentery, Diarrhœa, Fevers, Ague, Rheumatism, Asthma, Bronchitis, and Consumption.

EXTRACTS FROM MEDICAL OPINIONS.

From Dr. MONTGOMERY, late Inspector of Hospitals, Bombay.—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery; to it I fairly owe my restoration to health, after eighteen months' severe suffering, and when all other medicines had failed."

From W. VESSALIUS PETTIGREW, M.D.—"I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhœa, and other diseases, and am most perfectly satisfied with the results."

From the Rev. S. C. AITKEN, Cornwall.—"Sir,—I have used Chlorodyne in a great variety of cases of illness amongst my poorer neigbbours, and have found it invariably more or less efficient. In diarrhœa it has never failed in one single instance to effect a cure. In cases of toothache, and even confirmed rheumatism, it has almost invariably given relief. In the almost numberless cases of consumptive cough, which abounded in the neighbourhood, it afforded ease, which the sufferers could obtain from nothing else. I have also fonnd very great benefit from its use myself, and am now able to take duty as usual, after my life was despaired of from apparently developed phthisis."

From Dr. M'GRIGOR CROFT, late Army Staff:—"It is a most valuable medicine."

From Dr. GIBSON, Army Medical Staff, Calcutta.—"Two doses completely cured me of Diarrhœa."

CAUTION.—To avoid spurious compounds, or imitations of "Chlorodyne," always ask for "DR. J. COLLIS BROWNE'S CHLORODYNE," and see that his name is on the Government Stamp.

Sold only in Bottles, at 2s. 9d. and 4s. 6d., by all Chemists.

TUCKER AND SON'S

IMPROVED

ENAMELLED PUNKAH TABLE LAMPS.

THE celebrity which Tucker and Son's Lamps have acquired in the East, for burning *steadily* under the Punkah or in side draughts, and *brilliantly* with any of the *coarse native oils*, renders eulogy unnecessary; but having been enabled, by increased facilities of manufacture, very considerably to *reduce the prices* of the above favourite (but hitherto expensive) description of their lamps, T. & Son beg to notify the fact to the Indian Public.

They are elegant and durable, are finished in exact imitation of many beautiful stones and marbles, such as Malachite, Lapis Lazuli, Serpentine, Sienna, Brocatella, Jasper, &c., and are not affected by heat, damp, friction, or insects; oil, spirits, or acids accidentally spilled, &c. The enamel surface is so inseparable from the base (block slate, proverbial for its strength) that it cannot be removed except by an edged tool. It requires simply *dusting*, but if rubbed hard, it only adds a gloss to its appearance,—at all times cool and agreeable.

After ten years' constant use and handling, these lamps are none the worse for wear.

Malachite (green), Serpentine (brown), or Lapis Lazuli (blue), are most recommended.

Table Lamp complete, as sketch, 72s.

A Plainer Lamp, without the Corinthian capital, 50s. complete; if with plain frosted glasses, 7s. 6d. each less.

Orders can be sent through any merchant or East India Agent, or, if accompanied by a remittance, direct to
