
Contents

1 Introduction	5
Why Just React?	7
How This Book Works	8
Environment Setup	11
Debugging Crash Course	14
2 Hello World	16
3 JSX: What and Why	19
What Is JSX?	19
HTML Inside JavaScript?!	19
4 Working With JSX	25
Composing Components	25
Wrap JSX with Parentheses	26
“If” in JSX	34
Exercises	37
5 Example: Tweet Component	41
6 Props	55
Communicating With Parent Components	60

7 Example: Tweet With Props	61
What Exactly Should Be Passed as a Prop?	66
Guidelines for Naming Props	67
8 PropTypes	72
Documentation and Debugging In One	72
How Do I Validate Thee, Let Me Count the Ways	74
Example: Tweet with PropTypes	79
PropTypes as Documentation	83
Exercises	84
9 Children	86
Different Types of Children	88
Dealing with the Children	88
PropTypes for Children	89
Versus Transclusion in AngularJS	90
Customizing Children Before Rendering	90
Exercises	92
10 Example: GitHub File List	94
The “key” Prop	99
Exercises	109

11	State	113
	Example: A Counter	113
	setState Is Asynchronous	116
	Shallow vs Deep Merge	118
	Handling Events	119
	What to Put in State	120
	Thinking Declaratively	122
	Where to Keep State	126
	“Kinds” of Components	129
12	Input Controls	130
	Controlled Inputs	130
	Uncontrolled Inputs	133
13	The Component Lifecycle	136
	Phases	137
14	Example: Shopping Site	143
	Create ItemPage	152
	Create Item	155
	Create CartPage	165
	Array.prototype.reduce	167
	Object.keys	169

Exercises	175
15 Where To Go From Here	178
