

Breakthrough MOMENTS

Slide03.jpg

“You’ve probably noticed that your life seems to move from a season of security and rest, into a season of disruption and insecurity, and back again. Your life is neither a steady growth line nor an endless plateau.”

Slide06.jpg

“To put it another way, you’re traveling through the geography of change if you move forward across a flat plateau, content with where you are; you’re faced with a bump or a cliff, a challenge or an obstacle; you falter and turn away, choosing instead to stay on your plateau, maybe even step back a safe distance from that cliff.”

Slide07.jpg

“Or you seize the opportunity for a breakthrough and begin to climb; you break out onto a summit where you consolidate your gains; you begin moving forward again, across another, higher plateau.”

—BRUCE WILKINSON
