

The Sea Cow

Saving Every Animal

Changing our World

Volume 1, Issue 1

Winter 2008

Did you know?

- A Polar Bear's skins is actually black.
- Compared to all other bears, Polar Bears have the thickest fur.

Congratulations to our contest winner, **Kenzie!**

Enjoy your manatee WebKinz!
Don't forget to enter this month's contest!

Just a Thought

"My mission is to create a world where we can live in harmony with nature."

- Jane Goodall

A Green New Year's Resolution

With the new year right around the corner why not make a resolution to "Go Green!" It does not have to be huge, every little thing makes a difference. Here are some ideas:

- Turn off the sink while brushing your teeth.
- Recycle old newspapers.
- Turn off the lights when leaving a room.
- Make a compost bin in your backyard.

- Bring your own cloth bags when you go shopping.
- Plant a vegetable garden.
- Most importantly, spread the word.

Hope some of these ideas helped.

Please tell us how you are going green for the new year by mail or e-mail and it could be published in the next newsletter.

Want to see your animal artwork in our next newsletter. All you have to do is send it to us by mail or e-mail.

Thank you, Olivia, for submitting this wonderful picture of a manatee.

Sydney Saves A Species: The Power of One Girl

Congratulations to our President and Founder, Stephanie. She is soon to be a self-published children's book author.

An inspiring children's book, *Sydney Saves a Species, The Power*

of One Girl. The story of Sydney, an ordinary young girl who does the extraordinary to help a baby manatee. Hundreds of miles away and only in the second grade, what will she do? Based on the true story of our founder

and her desire to help save a baby manatee.

This book is now available for pre-order on our website. www.kmad.org

Have Compassion Don't Wear Fur Fashion

Wild animals who have been trapped for fur can suffer for days in painful traps. It does not get any better for animals that live in a fur factory; they spend their lives in tiny cages only ended of their misery when they are cruelly killed for their fur. But the cruelty does not stop their, global warming is having a huge impact on the polar climate. The melting ice is dramatically effecting the seal population, yet the Canadian commercial seal slaughter is still going on. Hundreds of baby seals are being clubbed for fur, some even being skinned alive.

Presidents Pick of the Month

HUMANE TEEN

www.humaneteen.org

Do you have what it takes?

Mission of the Month

Your mission, if you choose to accept it, is to stop buying plastic water bottles and buy a reusable one. For one month keep track of the money you save and how much less trash you are throwing out. This simple task can make a big difference.

ItemSpotlight:

Pasta Manatee

You can find this item on the KMAD store

(www.kmad.org). 100% of the proceeds will benefit injured and endangered manatees.

Don't delay, order today!
