Received a call from a resident on Hendy hollow rd about a dog that showed up at their house. The dog had a tag with a name and phone number, however they had no luck reaching the owners of the dog. I picked up the dog and went to the owners home at 5  Cleveland hill Rd. there was no answer, I picked up the dogs in caton however after checking my map I realized the dogs home was not in caton town lines so I contacted the Elmira animal shelter which handles that area and I delivered the dog to them.
