

JUL 2016

**Town Of Caton**  
**Dog Control Officer**  
BRUCE AKINS JR  
Monthly report

July 13, 2016

I had received a few calls this month about missing dogs, in which as to the best of my knowledge all have returned home safely. I also received a call from 911 about a dog that had been hit by a car on Whiskey Creek Rd. In which an officer had been dispatched to that location, the initial report said the dog had no tags, and the dog had been removed before the officer arrived. None of the missing dogs reported matched the description of the dog that had been hit.

I also received a letter from Steuben County Public Health about a dog bite case, in which I never received a call on. I will be following up on this case and also will be speaking with public health to insist on getting called on situations like this.
