Study materials will be sent upon receipt of registration and payment. You will not be considered registered until payment is received.  
 Calculators recommended, but no smart phones.

#### Overview of the American Concrete Institute Program

Certification as an ACI Certified Flatwork Finisher or Flatwork Finishing Technician is a professional designation gaining recognition throughout the United States. The program is useful for experienced and apprentice concrete finishers to sharpen and round out their knowledge of concrete finishing. This class session is a written examination only. You will be required to know the information prior to taking the examination. NO REVIEW WILL BE ADMINISTERED BEFORE THE TEST.

#### A picture ID is required!

**Who Should Attend:** This program is for anyone who finishes concrete in the field, contractor quality personnel, architect/engineer inspectors, and ready mixed concrete personnel.

**Why You Should Attend:** This is a certification program for anyone who finishes concrete in the field. ACI 301-10 specifications require that all finishing work be performed by a person whose training was equivalent to the ACI Concrete Flatwork Technician/Finisher Certification Program.

If a test is cancelled due to weather, illness, or other reason, all attendees will be notified as early as possible, and our liability will be limited to return of registration fees.
