FRONT ENTRANCE MODIFICATION ROOF INSTALLATION

TO ALL 7755 HURONTARIO STREET, BRAMPTON COURTHOUSE STAFF:

What is happening?

As part of the ongoing new Front Entrance project, the contractor, Brown Daniels, will be installing new roofing to cover the front entrance extension. This installation involves applying heat to a roofing membrane, which may produce a slight “burnt rubber” smell. This is a normal part of the installation process.

When?

Work will commence on Monday, November 13, 2017 and continue intermittently for 1-2 weeks.

Why?

This work is essential to complete the new roof of the courthouse entrance.

How will this affect me?

Some odours may be detectable inside the building intermittently during the 1-2 week installation. The heating, ventilation and air conditioning (HVAC) system of the building will help dissipate any potential odours. A material safety data sheet is available in the IO Property Services office for reference.

We apologize for any inconvenience and thank you for your patience as this work is being completed.
