

SUMMER SALE

June 1—July 30

The Best Interior Paint We've Ever Made!

EVEREST® Ultra Premium

- Formulated using ultra premium resins and pigments that provide exceptional performance, including hide, adhesion, and sheen uniformity
- Self priming on previously painted and prepared surfaces*
- Virtually no odor during or after application, perfect for painting occupied spaces
- Great flow and leveling for an even, uniform finish

*See Product Data Sheet for details.

¡La mejor pintura de interiores que hemos elaborado jamás!

- Formulada con resinas y pigmentos de primerísima calidad que ofrecen un desempeño excepcional, es decir, excelente recubrimiento, adhesión y brillo uniforme.
- Autoimprimante en superficies previamente pintadas y preparadas*
- Virtualmente libre de olor durante o después de la aplicación, ideal para pintar espacios ocupados
- Gran fluidez y nivelado para un acabado parejo y uniforme

*Consulte la hoja de datos del producto para más detalles.

ENDURALASTIC™ 10

ENDURALASTIC™ 10 is ultra-premium specialty, 100% acrylic elastomeric wall coating that provides superior performance and exceptional durability for masonry surfaces. **ENDURALASTIC™ 10** is ideal for residential, multi-family housing, schools, hospitals and commercial projects.

- Superior elasticity and elongation
- Excellent crack bridging properties
- Waterproofs against wind-driven rain
- Great dirt pick-up resistance

ENDURALASTIC™ 10 es un recubrimiento especial de paredes de primerísima calidad, 100% acrílico elastomérico que tiene un desempeño superior y una durabilidad excepcional para superficies de mampostería. **ENDURALASTIC™ 10** es ideal para viviendas residenciales y multifamiliares, escuelas, hospitales y proyectos comerciales.

- Elasticidad y elongación superiores
- Excelentes propiedades para cubrir las grietas
- A prueba de agua contra la lluvia que trae el viento.
- Gran resistencia a recoger polvo.

New!

ENDURALASTIC™ 5

ENDURALASTIC™ 5 is a premium specialty, 100% acrylic elastomeric wall coating that provides excellent performance and great durability for masonry surfaces. **ENDURALASTIC 5** is ideal for residential, multi-family housing, schools, hospitals and commercial projects.

- Excellent elasticity and elongation
- Very good crack bridging properties
- Waterproofs against wind-driven rain

ENDURALASTIC™ 5 es un recubrimiento especial de paredes de primera calidad, 100% acrílico elastomérico que tiene un desempeño superior y una durabilidad excepcional para superficies de mampostería. **ENDURALASTIC 5** es ideal para viviendas residenciales y multifamiliares, escuelas, hospitales y proyectos comerciales.

- Elasticidad y elongación excelentes
- Muy buenas propiedades para cubrir las grietas
- A prueba de agua contra la lluvia que trae el viento

SPARTAZERO® Interior Paint

SPARTAZERO® is a line of premium interior, low odor, Zero VOC paints that provide exceptional hide, durability and performance. They are ideal for use on residential and commercial projects, schools, hospitals or hotels, and any application where low odor products are preferred.

- Formulated using the highest quality resins and pigments to provide better scrub and block resistance and adhesion.
- Better balance of sag resistance and flow and leveling provides a uniform, smooth finish
- Unique thickeners to minimize roller spatter, making it easier to apply

SPARTAZERO® es una línea de pinturas de primera calidad para interiores, de poco olor, con cero VOC que ofrece un recubrimiento, durabilidad y desempeño excepcionales. Es ideal para uso en proyectos residenciales y comerciales, escuelas, hospitales, hoteles, y en cualquier aplicación donde sea preferible usar productos de poco olor.

- Formulada usando resinas y pigmentos de la más alta calidad para proveer una mejor resistencia a la frotadura, al bloqueo y mejor adhesión.
- Mejor equilibrio entre la resistencia al hundimiento y la fluidez y el nivelado ofrece un acabado uniforme y liso
- Espesadores especiales para minimizar las salpicaduras del rodillo, lo cual la hace más fácil de aplicar

Super-Loc® Premium Primer

Priming with SUPER-LOC® Premium Masonry/Bonding Primer offers excellent adhesion on a vast array of difficult-to-paint surfaces (see Product Data Sheet) in addition to alkali and efflorescence resistance on interior and exterior masonry surfaces. It is ideally suited for use on commercial and residential projects, such as schools, hotels, hospitals and single or multi-tenant housing.

- Formulated with advanced resin technology, which improves adhesion properties, alkali and efflorescence resistance
- Easy to apply and dries fast
- Low odor and low VOC content

El imprimado con el fijador/imprimador de mampostería SUPERLOC® Premium ofrece una excelente adhesión en una amplia gama de superficies difíciles de pintar (consulte la Hoja de datos de producto) además de resistencia a los álcalis y al salitre en superficies de mampostería interiores y exteriores. Es realmente adecuado para uso en proyectos comerciales y residenciales como escuelas, hoteles, hospitales y viviendas unifamiliares o para varios inquilinos.

- Formulada con una tecnología avanzada de resina que mejora las propiedades de adhesión y la resistencia a los álcalis y al salitre.
- De fácil aplicación y secado rápido
- Poco olor y bajo en contenido de VOC

- Recommended for all applications. Works best for applying low VOC paints
- Design helps in cutting-in a long paint stripe
- Polyester/Nylon filaments provide firm blend for maximum stiffness
- Se recomienda para todas las aplicaciones. El resultado es mejor para aplicar en pinturas de bajo contenido de VOC
- El diseño ayuda a interrumpir una franja larga de pintura
- Los filamentos de poliéster/nilón ofrecen una fusión firme para una rigidez máxima

Superior sanding performance for a premium surface finish.

Lijas con rendimiento superior para un óptimo acabado.

- Premium heat-treated abrasive offers faster cut and longer sanding life than 3X technology. Heat treating toughens the grain allowing it to stay sharp and last longer under extreme pressure, making it the most durable abrasive on the market. Super sharp edges allow grain to remove material faster.
- Increased backing weight, fiber-reinforcement and latex saturation offers better grain retention and tear-resistance yet is highly flexible for easy folding and unfolding.

Superior sanding performance for a premium surface finish.

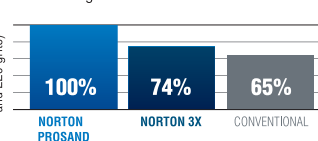

Lijas con rendimiento superior para un óptimo acabado.

Limpeza y grabado de metales

The type of stain you use depends on the type of project. Here are some guidelines:

- **Penetrating Stain** is recommended for unfinished, interior wood surfaces or surfaces that have had the finish removed. This stain is particularly suited for staining unfinished hardwoods such as oak, ash, walnut and mahogany.
- **Wiping Stain** can be used on a wide range of surfaces, including unfinished wood, previously finished surfaces, fiberglass, metal and composition surfaces. It is especially recommended for woods such as pine, birch, maple, poplar and cherry.
- **Gel Stain** is formulated for use on non-porous surfaces, such as fiberglass, metal and composition surfaces, yet it is suitable for wood, as well. Gel Stain is highly recommended for woods such as pine, birch, maple, poplar and cherry, and provides excellent application on vertical surfaces.
- **Water-based Wood Stain** is designed for use on bare wood, interior wood surfaces or any surfaces that have had a previous finish removed. This stain is fast-drying and cleans up easily with soap and water.

VALSPAR Lacquer

Lacquer makes wood objects look like they have a thick, high shine shell on top of the surface. When lacquer is used, the eye sees two layers—the top layer of the wood object and the layer of lacquer on top of it. There are three primary types of lacquers: nitrocellulose (quick drying and inexpensive—can turn yellow over time; good on wood), acrylic (avoids the yellowing problem, applies crystal clear and stays that way for a long time) and catalyzed (a hybrid that cures chemically).
