Deceuninck North America's eos[®] Patio Door Wins Readers' Choice Award

Deceuninck North America's eos[®] patio door opens new opportunities for affordable, energy-optimized systems. *Door and Window Market* magazine readers took note and selected the eos patio door as the "Most Significant Patio Door Product of 2015."

Designed to complement the eos window system, the patio door is easy to manufacture and highly energy efficient, meeting the criteria for Energy Star 6.0.

It contains Innergy Rigid Thermal Reinforcements, fiberglass-reinforced resin inserts designed to slide easily into window and door frame chambers for greater support and insulation.

The eos patio door is available as a two-panel sliding patio door or direct set versatile door offered in two, three or four lite configurations. The door is designed for light commercial DP 45 and residential DP 50.

Visit our website to learn more about the [eos[®] line of energy-efficient doors and windows](#).
