Deceuninck North America Welcomes New Product Engineering Manager

Doug Harden Joins Team to Support Systems Design and Development

[Deceuninck North America](#) is pleased to announce the appointment of **Doug Harden** as product engineering manager. In this role, Harden will manage and participate in the design and development of fenestration and building product systems. He will also work with sales and technical services, offering engineering support and technical expertise to customers.

“With more than three decades of experience, Doug joins us with a high level of expertise in the fenestration industry,” said Filip Geeraert, president and CEO of Deceuninck North America. “I’m happy to welcome Doug to the team, and I’m confident his presence will add to an already strong line-up of innovators who are pushing the boundaries of window and door performance.”

Harden joins Deceuninck with 28 years of experience in product design, project management and quality assurance in the window and door industry. Most recently, he was vice president of technical services at Atrium Companies in Dallas, Texas, where he improved the number of new product series per year by 200 percent. Harden also gained experience as director of engineering at Atrium in North Carolina, where he led the planning, design and development of their new facility, and implemented three new product family designs.

About Deceuninck

Deceuninck North America, LLC is part of the Deceuninck Group, an integrated global organization specializing in compounding, tool fabrication, design, development, extrusion, finishing of uPVC window systems and composite applications for the building industry. The company is active in more than 75 countries, and is supported by 2,700 personnel worldwide. In 2013, Deceuninck Group achieved consolidated sales of €536.5 million Euros worldwide (approximately \$710 million USD). In 2014, Deceuninck strengthened its top 3 market position through the acquisitions of ‘Pimapen,’ the most recognized brand for PVC windows in Turkey adding approximately \$75 million of annual sales. (Turkey is Europe’s 2nd largest PVC window market.) Deceuninck North America encompasses fully-integrated design, compounding, tooling, extrusion and quality assurance disciplines for the production of vinyl window and door systems and composite applications for the building industry at its corporate headquarters in Monroe, Ohio.
