Ultimate Princess Celebration

Grab your glass slippers, your magic carpet, and your Seven Dwarfs — it's time to party with the princesses! Disney is throwing a 15-month-long princess party, and your bakery is invited. The Ultimate Princess Celebration will inspire fans of all ages through the beloved Disney Princess virtue: the courage to be kind.

DecoPac has a delightful new product to give your bakery just the right amount of sparkle for princess party planning — a new Ariel DecoSet®! Dive [or swim] under the sea with everyone's favorite red-headed mermaid for a sweet glimpse of Ariel's favorite artifact from the human world — the Dinglehopper! Once the cake is cut, customers can take Ariel with them on their own journey under the sea, where they will see her fins change color in cold water. The party doesn't stop after everyone goes home with this DecoSet® — that's when the fantastic adventures just begin!

Think outside the Cake!

Whether you take yours glazed, filled with jelly or dusted with powdered sugar, donut deny the decorated donut sensation!

Did you know that donuts outsell cupcakes 13 to 1?

In 2019 alone, over 10 billion donuts were consumed. Consumers first eat with their eyes, and these circles of sugary happiness are easy to grab, and easy to share. Donuts are all the rage for events with multi servings desserts like weddings, potlucks, and birthdays. Get creative with donuts this year by experimenting with shape and size — turn a baker's dozen into a box of dinosaurs, mermaids, monsters or unicorns! The options are endless with PhotoCake® opportunities, with hundreds of seasonal, licensed and trending images.

Donut glaze over offering donut treats and centerpieces for celebrations all year round.

Wedding 2021/22

Welcome to the year of intentionality.

Due to the unforeseen circumstances of the past year, wedding celebrations have had to adapt — smaller guest lists, intimate ceremonies, distanced receptions and alternative cake formats. As couples rework their wedding nuptials, weddings will inevitably continue to look a bit different in 2021. But nonetheless, if the past year has taught us anything it is that celebration is at the very core of who we are — weddings won't stop because love will never be canceled.

This year, couples are making everything more intentional with personalized details and intimate moments. One of the steadfast constants of the big day are the sweets behind the celebration. Whether it's a tiered masterpiece, a simple round, or a dessert table of the couple's favorite treats — DecoPac has every tool and decoration to combine color, texture and technique to create personalized sweets as the celebration's centerpiece. Bring the wedding together with treats every bit as sweet and special as the couple.

Custom is the new tradition!

Weddings are becoming less traditional and more personalized to the happy couple, but one thing that remains constant is the sweets behind the celebration. That might be the big cake with the ceremonious cutting or it's a dessert table filled with smaller format treats. DecoPac has all the colors, textures, and techniques needed to help make you the one-stop shop for wedding cake planning!

COLOR

Maybe the couple isn't traditional and a white cake just won't work. Bring life and color to the centerpiece of the dessert table by incorporating color to the cake! Between our premium colors, delicate gum paste adornments and metallic toppers — there is a decoration for every color scheme.

TEXTURE

Make a personalized statement with wedding cakes by using texture. Whether it's carving lace-inspired filigree for the romantic couple, geometric iterations for the modern couple, or thick layers of buttercream for the simplistic and natural couple — DecoPac has every tool to get

TECHNIQUES

Say "I do!" to intricate and elegant piping techniques that will showcase the cake as part of the romantic ambiance. DecoPac has the supplies for every technique up your sleeve.

Edible Image®

Flat, printed edible designs are pre-printed with edible food colors that retain color clarity and resist color bleeding, even on high moisture applications. Edible Image® decorations absorb moisture from the food product and become soft, melding into the food item and cutting easily. Made in the USA and Kosher certified.

With Cake Lace, it's easy to add edible lace decorations to your cakes. Simply mix as directed, spread onto the silicone mat and place in the oven at 175°F. Bake for 12 to 15 minutes, cool for five minutes and the lace is ready to use, or allow to cure overnight. Once made, Cake Lace will stay moist and pliable for many months, allowing you to create masterpieces over time.

Airbrush Warranty & Cleaning

AIRBRUSH PROGRAM:

In order to service your airbrush equipment and help keep your system running smoothly, we offer a simple program to ensure your cake decorating equipment is always in good working condition.

AIRBRUSH GUNS:

1. Our Customer Service Representatives are trained to service airbrush guns and associated parts, you can reach them at 1-800-DECOPAC for immediate assistance. They will assist cake decorators with proper cleaning techniques and minor adjustments. We encourage you to properly clean your equipment on a regular basis; if not we find most airbrush guns have the potential to malfunction. If this occurs, we are often able to resolve the situation through our in-house service. (NOTE: There is no charge for contacting our trained representatives)
2. If you encounter more stubborn problems, send us the airbrush gun and or associated parts and we will rehabilitate and return your item within four to five weeks. We also offer reconditioned airbrushes in exchange for the same make and model. DecoPac and all other models will be rehabilitated or exchanged for a flat fee of \$30.00.

AIRBRUSH COMPRESSORS:

If your compressor is not working properly and you cannot resolve the issue, please contact DecoPac directly at 1-800-DECOPAC for further assistance.

1. The manufacturer's one year warranty is limited to defective parts or workmanship only. The manufacturer's warranty may be void if general maintenance is not performed or is considered normal wear and tear.
2. If it is determined that the airbrush compressor must be returned to the manufacturer for adjustment, we will issue a Fed Ex Call Tag for the return of the compressor as long as it is within the warranty period of one year from the date of the purchase. A copy of the purchased invoice is required to receive the service.
3. You will need to place an order if:
 - The compressor is not under warranty/is not returned in packaging to prevent further damage
 - We are not able to service the compressor and/or provide a replacement.

CLEANING YOUR AIRBRUSH:

1. Rinse airbrush gun with water between colors.
2. At end of day, clean airbrush with CleanAire® (page 345).
3. Rinse with water and let dry overnight.

PROGRAMA DE AERÓGRAFOS:

Para realizar el debido mantenimiento de su equipo de aerógrafo y ayuda a conservar el buen funcionamiento del Sistema, ofrecemos un programa simple que le permite asegurar que su equipo de decoración de pasteles este siempre en buenas condiciones.

PISTOLAS DE AEROGRAFÍA:

1. Nuestros representantes de Servicio al Cliente están capacitados para hacer el mantenimiento de pistolas de aerografía y piezas relacionadas. Llame al 1-800-DECOPAC para obtener asistencia inmediata. Ellos colaboraran con los decoradores de pasteles para que aprendan las técnicas apropiadas de limpieza y ajustes menores. Recomendamos limpiar correctamente los equipos en forma regular, de lo contrario la mayoría de las pistolas de aerografía pueden presentar problemas. En ese caso, podemos resolver el problema a través de nuestro servicio de nuestro mantenimiento interno. (NOTA: no se aplican cargos por contactar a los representantes capacitados)
2. Si los problemas persisten, envíenos la pistola de aerografía o las partes relacionadas, corregiremos el problema y le devolveremos el artículo en un plazo de cuatro a cinco semanas. También ofrecemos el reemplazo de los aerógrafos DecoPac reacondicionados de la misma marca y modelo. Se aplica una tarifa fija de \$30.00 por el arreglo o reemplazo de los aerógrafos DecoPac y todos los demás modelos.

COMPRESORES DE AEROGRAFÍA:

Si su compresor no funciona en forma correcta y no puede solucionar el problema, comuníquese directamente con DecoPac al teléfono 1-800-DECOPAC para obtener ayuda.

1. La garantía de un año del fabricante se limita a defectos en las piezas o mano de obra únicamente. La garantía del fabricante puede quedar anulada si no se realiza un mantenimiento general o si se considera que el defecto es parte del desgaste y deterioro normales.
2. En caso de que se determine necesario enviar el compresor de aerografía al fabricante para arreglarlo, nuestros representantes emitirán una etiqueta de FedEx para la devolución del compresor siempre que se encuentre dentro del periodo de garantía de un año de la fecha de compra. Se requiere una copia de la factura de compra para recibir el servicio.
3. Tendrá que hacer una orden para un compresor nuevo si:
 - El compresor no está en garantía y no es devuelto en un empaque donde la unidad no tome daños adicionales.
 - No somos capaces de dar mantenimiento o proporcionar un reemplazo.

LIMPIEZA DEL AERÓGRAFO:

1. Enjuague la pistola de aerógrafo entre colores.
2. Limpie su pistola de aerógrafo con "CleanAire®" al final del día (página 345).
3. Enjuague con agua y deje secar durante la noche.

Safety, Quality & Sustainability

SAFETY & QUALITY GUARANTEE

To ensure customer satisfaction, we unconditionally guarantee the quality of every product we sell. If a product fails to perform as expected due to a quality problem, we will replace or provide a full refund. Our cake decorations, edible or nonedible, meet all applicable United States regulatory requirements, including those promulgated by the FDA and the CPSC.

We take many quality and safety measures; some of the standards we adhere to include:

- Products are tested and certified by accredited third-party laboratories in accordance with the Consumer Product Safety Improvement Act (CPSIA). Our standard for lead content is stricter than the federal regulations. Toys are tested to the ASTM F963 Toy Safety Standard, including the critical Small Objects requirement (Choke Hazard).
- As needed, DecoSets® include safety stickers to inform consumers of important safety warnings. Cake decorators must place them on the cake dome and/or box when delivered to the consumer. Look for the warning triangle symbol in our catalog and on The Magic Of Cakes® pages.
- Product samples from every incoming shipment are double-checked by our in-house Quality Control. We use advanced XRF (x-ray fluorescence) equipment to check for heavy metals (including lead) and use the exact same equipment and procedures as specified in the federal ASTM F963 Toy Safety Standards to check for physical/mechanical hazards.
- DecoPac is certified by third-party auditors to the internationally-recognized Safe Quality Food (SQF) standard for food safety.
- Gum paste items are sold as non-edible decorations only. They are kosher and safe for food contact.
- Our edible products are marked with a "Best If Used By" date. If the product is unopened and stored properly, the quality will remain consistent until at least that date.
- Contact a customer service representative to obtain a General Conformity Certificate or other product information.

SUSTAINABILITY

Our belief that everything we do has some impact on the environment influences the decisions we make. As part of our commitment to promoting social responsibility and minimizing waste, we manage our company based upon the below environmentally-friendly principles.

REDUCE

DecoPac prints all publications on papers that feature FSC® and SFI® Chain of Custody certification (in other words – sustainably managed forests). We also utilize water-efficient fixtures in our facility to conserve water. Environmentally-friendly cleaning supplies are used throughout our office and warehouse. Air pillows made from recycled plastic are used in our packages to cushion products during shipping.

REUSE

DecoPac uses rechargeable batteries in most warehouse transportation and distribution equipment. Used office equipment is also donated or sold to other organizations to be reused instead of being placed in the waste stream. We are also distributing more sales materials in electronic form in order to reduce the use of paper and the environmental transportation costs associated with mailing the materials.

RECYCLE

DecoPac has been and continues to be a leader in recycling. Most waste generated by our business is kept out of the waste stream. We recycle nearly 100% of all corrugate and packaging supply materials. Other items that are recycled at DecoPac include: electronic scrap, batteries, cell phones, printer cartridges, printer paper, decorating products, bottles and cans.

EMPLOYEE INVOLVEMENT

100% of our employees participate in corporate recycling programs and are educated on waste reduction efforts. DecoPac also offers many environmentally friendly services to our employees such as electronic waste and battery recycling, "Plant a Tree" programs and "Adopt a Park" sponsorship.

Las compras en línea están más arraigadas en nuestras vidas cada año. Las tiendas han desarrollado rápidamente sus planes de comercio electrónico para mantenerse actualizadas, pero la plataforma típica solo funciona bien con pedidos estándares de comestibles. CelebrationIQ™ llegó para ayudar. Como trabaja con su presencia en línea actual, nuestro software le brinda la capacidad de ofrecer personalización para los pedidos de sus compradores. Incluso podemos ofrecer una interacción de compra perfecta integrando los sistemas de pago y el carrito de compras de su sitio web.

¿ESTÁ PERDIENDO VENTAS POR UN SITIO WEB INFLEXIBLE?

Las plataformas de comercio electrónico pueden funcionar excelentemente con artículos estándares, pero fracasan cuando se trata de pedidos especiales. Lo que ve es lo que obtiene. ¿Sus compradores en línea se van a otra tienda porque no pueden comprar lo que quieren desde la comodidad de su teléfono o computadora? CelebrationIQ puede ayudarlo a ofrecer exactamente lo que buscan esos clientes.

CÓMO FUNCIONA:

Preparación: usted decide qué desea vender y qué opciones ofrecer.

Tienda: los clientes encuentran los artículos que quieren y los personalizan para que se adapten a sus necesidades.

Pedido: con nuestras integraciones opcionales, un comprador puede usar su carrito de compras y su sistema de pago para completar el pedido. O el comprador puede simplemente enviarle un pedido a usted: la elección es suya.

Comuníquese con su representante de ventas de DecoPac para obtener más información sobre cómo CelebrationIQ puede ayudarlo a brindar una experiencia de cliente en línea mejor y optimizada.

Nuestras decoraciones para pasteles, comestibles o no, cumplen con todos los requisitos reglamentarios aplicables de los Estados Unidos, incluidos los promulgados por la Administración de Drogas y Alimentos de los Estados Unidos (FDA) y la Comisión para la Seguridad de los Productos de Consumo de los Estados Unidos (CPSC).

Tomamos muchas medidas de calidad y seguridad; algunas de las normas que cumplimos incluyen las siguientes:

Distintos laboratorios de terceros acreditados de conformidad con la Ley de Mejora de la Seguridad de los Productos de Consumo (CPSIA) analizan y certifican los productos. Nuestra norma relativa al contenido de plomo es más estricta que las reglamentaciones federales. Los juguetes se analizan según la Norma de Seguridad para Juguetes ASTM F963, lo que incluye el requisito crítico para objetos pequeños (peligro de asfixia).

- Según sea necesario, los DecoSets® incluyen adhesivos de seguridad para informar a los consumidores sobre las advertencias de seguridad importantes. Los decoradores de pasteles deben colocarlos en la tapa o la caja del pastel cuando lo entreguen al consumidor. Busque el símbolo del triángulo de advertencia en nuestro catálogo y en las páginas de The Magic Of Cakes®.

- Nuestro departamento de Control de Calidad interno verifica dos veces las muestras de productos de cada envío entrante. Utilizamos equipos de fluorescencia de rayos X (XRF) avanzados para verificar la presencia de metales pesados (incluido el plomo) y usamos exactamente los mismos equipos y procedimientos que se especifican en la Norma de Seguridad para Juguetes ASTM F963 a fin de comprobar si existen riesgos físicos o mecánicos.

- DecoPac está certificado por auditores externos con la norma de Seguridad y Calidad de los Alimentos (SQF) reconocida internacionalmente para la seguridad alimentaria.

- Los artículos de pasta de goma se venden únicamente como decoraciones no comestibles. Son productos kosher y seguros para tener contacto con los alimentos.

- Nuestros productos comestibles están marcados con una fecha de "Best If Used By" (Consumir preferentemente antes del). Si el producto no se abre y se almacena correctamente, la calidad permanecerá intacta hasta, al menos, esa fecha. Comuníquese con un representante del Servicio al Cliente para obtener un Certificado de Conformidad General u otra información del producto.

SOSTENIBILIDAD

Nuestra creencia de que todo lo que hacemos tiene algún impacto en el ambiente influye en las decisiones que tomamos. Como parte de nuestro compromiso de promover la responsabilidad social y minimizar los residuos, gestionamos nuestra compañía en función de los siguientes principios ecológicos.

REDUCIR

DecoPac imprime todas las publicaciones en papeles que tienen certificación FSC® y SFI® de Cadena de Custodia (en otras palabras, provenientes de bosques gestionados de manera sostenible). También utilizamos equipos de uso eficiente del agua en nuestras instalaciones para conservar el agua. En toda nuestra oficina y depósito se utilizan suministros de limpieza ecológicos. En nuestros paquetes se utilizan almohadillas de aire de plástico reciclado para amortiguar los productos durante el envío.

REUTILIZAR

DecoPac utiliza baterías recargables en la mayoría de los equipos de transporte y distribución del depósito. Los equipos de oficina usados también se donan o venden a otras organizaciones para que se reutilicen, en lugar de desecharse y sumarse al flujo de residuos. También estamos distribuyendo más materiales de venta en formato electrónico para reducir el uso de papel y los costos ambientales del transporte relacionados con el envío de los materiales.

RECICLAR

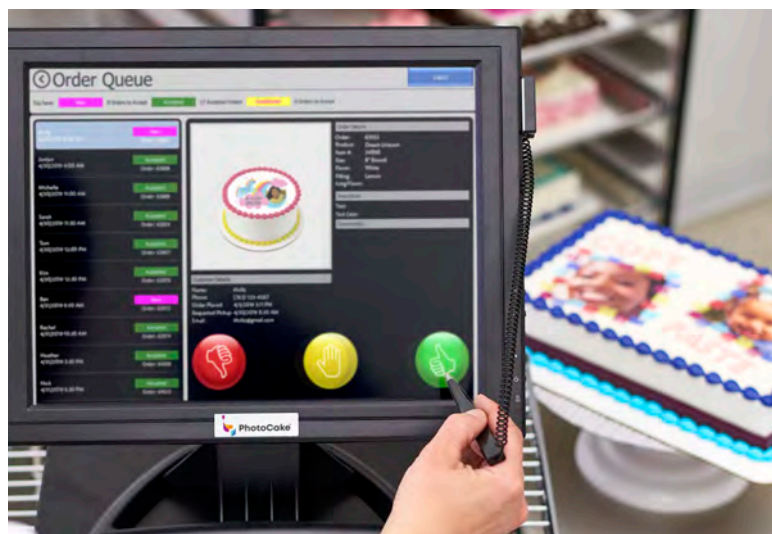

DecoPac fue y sigue siendo líder en reciclaje. La mayoría de los residuos generados por nuestro negocio se mantienen fuera del flujo de residuos. Reciclamos casi el 100 % de todos los materiales de suministro de corrugado y empaque. Otros artículos que se reciclan en DecoPac incluyen basura electrónica, baterías, teléfonos celulares, cartuchos de impresora, papel de impresora, productos de decoración, botellas y latas.

PARTICIPACIÓN DE LOS EMPLEADOS

EL 100 % de nuestros empleados participa en programas corporativos de reciclaje y recibe formación sobre esfuerzos de reducción de residuos. DecoPac también ofrece muchos servicios ecológicos a nuestros empleados, como reciclaje de basura electrónica y baterías, programas "Plant a Tree" (Plante un árbol) y patrocinio de "Adopt a Park" (Adopte un parque).

Nous sommes même en mesure d'offrir une interaction de magasinage harmonieuse en intégrant nos services au panier d'achats et aux systèmes de paiement de votre site Web.

Pour assurer la satisfaction des clients, nous garantissons sans condition la qualité de tous les produits que nous vendons. Si un produit ne fonctionne pas comme prévu en raison d'un problème de qualité, nous le remplacerons ou le rembourserons intégralement. Nos décorations de gâteaux, comestibles ou non, satisfont à toutes les exigences réglementaires américaines en vigueur, notamment celles édictées par la FDA et le CPSC.

Nous prenons de nombreuses mesures concernant la qualité et la sécurité; certaines des normes que nous observons portent sur les points suivants :

- Les produits sont testés et certifiés par des laboratoires indépendants accrédités conformément à la Loi américaine sur l'amélioration de la sécurité des produits de consommation (Consumer Product Safety Improvement Act ou CPSIA). Notre norme concernant la teneur en plomb est plus stricte que la réglementation fédérale. Les jouets sont testés conformément à la norme ASTM F963 sur la sécurité des jouets, y compris l'exigence critique relative aux objets de petite taille (risque d'étouffement).
- Le cas échéant, les DecoSets® comportent des autocollants de sécurité pour informer les consommateurs des avertissements de sécurité importants. Les décorateurs de gâteaux doivent les placer sur le sommet du gâteau et/ou sur la boîte lors de la livraison au consommateur. Recherchez le symbole du triangle d'avertissement dans notre catalogue et sur les pages The Magic Of Cakes®.
- Des échantillons de produits provenant de chaque livraison de produits sont vérifiés par notre service interne de contrôle de la qualité. Nous utilisons un équipement de pointe XRF (fluorescence X) pour détecter les métaux lourds (notamment le plomb) et nous utilisons exactement le même équipement et les mêmes procédures que ceux spécifiés dans la norme ASTM F963 de sécurité des jouets pour détecter les dangers physiques et mécaniques.
- DecoPac est certifiée par des inspecteurs indépendants à la norme internationale de salubrité alimentaire Safe Quality Food (SQF).
- Les produits en pâte de sucre sont vendus comme décorations non comestibles exclusivement. Ils sont casher et de qualité contact alimentaire.
- Nos produits comestibles portent une indication « Date limite d'utilisation optimale ». Si le produit n'est pas ouvert et est entreposé correctement, la qualité sera maintenue au moins jusqu'à cette date.
- Communiquez avec un représentant du service à la clientèle pour obtenir un Certificat de conformité générale ou d'autres renseignements sur le produit.

DÉVELOPPEMENT DURABLE

Savoir que tout ce que nous faisons a un certain impact sur l'environnement influence nos décisions. Dans le cadre de notre engagement pour promouvoir la responsabilité sociale et minimiser le gaspillage, nous gérons notre entreprise en nous fondant sur les principes écologiques ci-dessous.

RÉDUIRE

DecoPac imprime toutes ses publications sur du papier certifié Traçabilité FSC® et SFI® (en d'autres termes – des forêts gérées de façon durable). Nous utilisons également des appareils économes en eau dans notre établissement pour conserver l'eau. Des produits de nettoyage écologiques sont utilisés dans l'ensemble de nos bureaux et de nos entrepôts. Des coussinets d'air en plastique recyclé sont utilisés dans nos emballages pour amortir les produits pendant l'expédition.

RÉUTILISER

DecoPac utilise des batteries rechargeables dans la plupart des équipements de distribution et de manutention dans les entrepôts. Le matériel de bureau usagé est également donné ou vendu à d'autres organismes pour être réutilisé au lieu d'être mis au rebut. Nous diffusons également davantage de supports commerciaux sous forme électronique afin de réduire la consommation de papier et les coûts environnementaux de transport associés à l'envoi des documents.

RECYCLAGE

DecoPac a toujours été un chef de file en matière de recyclage. La plupart des déchets générés par notre activité ne sont pas mis au rebut. Nous recyclons près de 100 % de l'ensemble des matériaux d'emballage et de carton ondulé. Les autres articles recyclés chez DecoPac comprennent : les rebuts électroniques, les piles, les téléphones cellulaires, les cartouches d'imprimante, le papier pour imprimante, les produits de décoration, les bouteilles et les canettes.

PARTICIPATION DES EMPLOYÉS

100 % de nos employés participent à des programmes de recyclage d'entreprise et sont informés des efforts de réduction des déchets. DecoPac offre également de nombreux services respectueux de l'environnement à ses employés, comme le recyclage des déchets électroniques et des piles, les programmes « Plant a Tree » (planter un arbre) et l'opération de parrainage « Adopt a Park » (adopter un parc).
