

Notes:

- Floor to Ceiling height – Currently 9ft 10in. Expected 10ft
- We are suspecting there are around 2 layers of current flooring adding to 2 inches
- Behind the sink and to the right of the refrigerator there is an opening to the living area at bar counter height
- There are recessed lights, a ceiling fan, and a pendant light in the kitchen
- There is a pantry cabinet to the left of the dishwashing machine
- Wall behind range goes up to 8 ft and is open to the back. Plan is to raise the wall all the way up.
- Current flooring is tile
