It was in the early 1980's that Donna and her family moved to the Pacific Northwest. She was invited to appear on a local radio station to demonstrate her skills of mind and the positive impact was so great she ended up being a local media personality. Record numbers of callers would consistently jam the telephone lines. Her non-sensational approach continues, even today, to fascinate and delight her listening and viewing audiences. She is repeatedly asked to come back for additional appearances.
