DANCE ARTS ALLIANCE

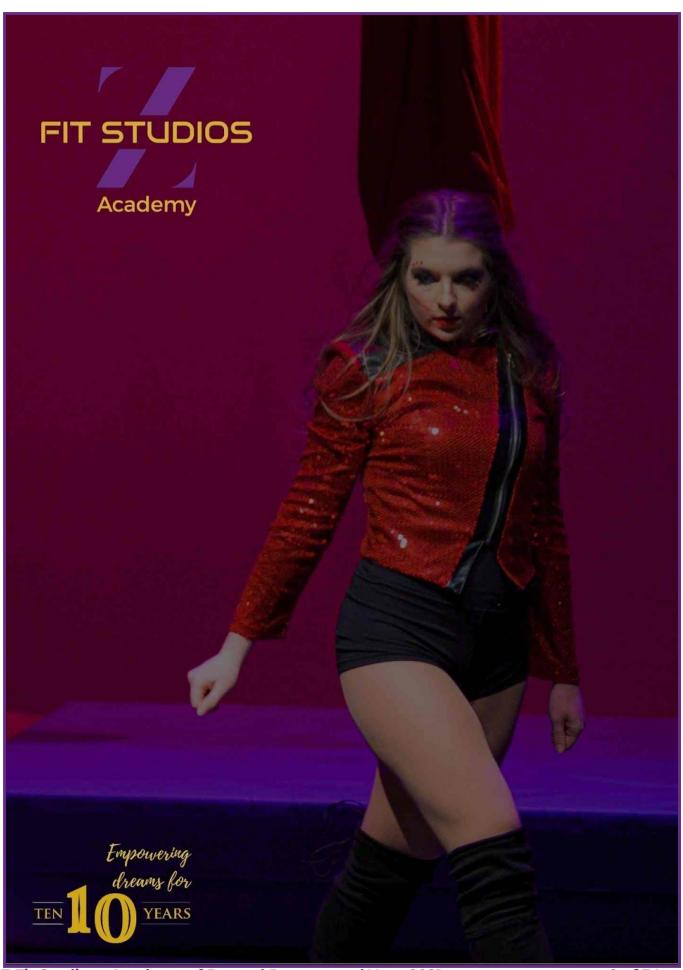

We understand that extremely competitive environments within the performing arts,

unfortunately run the risk of comparing students rather than celebrating individuality, uniqueness, body image, love, creativity and musicality. Hence, we focus on personal progression and individual achievement rather than competition between our students.

We are proud to be a Child Safe Organization and are working closely to keep our kids safe within dance practices. The 'Keep Kids Safe in Dance' organisation's main objective is to raise awareness of the current issues surrounding dance. To find out more information about 'Keep Kids Safe in Dance', please have a look at the following website: https://www.keepkidssafeindance.com.au/home-1

CLASS NUMBERS

Due to the importance of focused training and constant feedback to our students, we have decided to have a cap on students for each class.

Within our technique classes, our student intake is capped at 12. This cap allows us to have a maximum of 3 exam groups within the one class and allows that constant feedback and focused training to each individual.

Within our performance classes, we have decided to cap our student intake at 15. This will allow us to again have the same focused and specialised training, and also catering for specific performance opportunities.

FEEDBACK FROM THE INSTRUCTORS

Upon the completion of each term, the instructor from every technique class will supply a feedback sheet to each student. These will be laid out similar to the examination results. While these will not be official certifications, these feedback sheets will allow students to work on specific areas to improve their skills and discover their strengths. It will also allow students and their parents to appreciate their hard work.
