Every injury or death is with blood support, organs and intestines flying everywhere, faces, hearts, and eballas getting torn out, and people tearing in half. Very different from superhero movies from DC or the beakuniverse when Helleboi gets sword by stone, the galaxies come from hell and people start edgy. There is a view due to the hellyboi apocalypse. In this, he's a dragon ride that's his poonch, killing more than one people. After that they jumped to catch land prices and dozens of people.
